This Is Ohio Jack Shuler, 2020-09-08 Winner of the 2019 2020 Malott Prize for Recording Community Activism Winner of the 2020 Richard Frisbie Award for Adult Nonfiction from the Society of Midland Authors For readers of Dopesick and Dreamland journalist Jack Shuler explores the current addiction crisis as a human rights problem fostered by poverty and inadequate health care in this insightful look at how the issues in Ohio affect the rest of the country Cosmopolitan A Best Nonfiction Book of the Year Tainted drug supplies inadequate civic responses and prevailing negative opinions about people who use drugs the poor and those struggling with mental health issues lead to thousands of preventable deaths each year while politicians are slow to adopt effective policies Putting themselves at great personal risk and often breaking the law to do so the brave men and women profiled in This Is Ohio are mounting a grassroots effort to combat ineffective and often incorrect ideas about addiction and instead focus on saving lives through commonsense harm reduction policies Opioids are the current face of addiction but as Shuler shows the crisis in our midst is one that has long been fostered by income inequality the loss of manufacturing jobs across the Rust Belt and lack of access to health care What is playing out in Ohio today isn't only about opioids but rather a decades long economic and sociological shift in small towns all across the United States It's also about a larger culture of stigma at the heart of how we talk about addiction What happens in Ohio will have ramifications felt across the nation and for decades to come

Modernizing Crime Statistics: Report 2 National Academies of Sciences, Engineering, and Medicine, Division of Behavioral and Social Sciences and Education, Committee on Law and Justice, Committee on National Statistics, Panel on Modernizing the Nation's Crime Statistics, 2018-04-23 To derive statistics about crime to estimate its levels and trends assess its costs to and impacts on society and inform law enforcement approaches to prevent it a conceptual framework for defining and thinking about crime is virtually a prerequisite Developing and maintaining such a framework is no easy task because the mechanics of crime are ever evolving and shifting tied to shifts and development in technology society and legislation Interest in understanding crime surged in the 1920s which proved to be a pivotal decade for the collection of nationwide crime statistics Now established as a permanent agency the Census Bureau commissioned the drafting of a manual for preparing crime statistics intended for use by the police corrections departments and courts alike The new manual sought to solve a perennial problem by suggesting a standard taxonomy of crime Shortly after the

Census Bureau issued its manual the International Association of Chiefs of Police in convention adopted a resolution to create a Committee on Uniform Crime Records to begin the process of describing what a national system of data on crimes known to the police might look like Report 1 performed a comprehensive reassessment of what is meant by crime in U S crime statistics and recommends a new classification of crime to organize measurement efforts This second report examines methodological and implementation issues and presents a conceptual blueprint for modernizing crime statistics

assault by a man on his wife or girlfriend is an everyday phenomenon What should the police and law courts do about it In

Policing Domestic Violence first published in 1989 reissued here with a new preface Susan Edwards draws upon her

extensive research into their actual responses both before and after recent initiatives towards reform at the time to address

the practical and theoretical issues for criminology and feminism Examining police and court practice the author exposes the

ways in which the patriarchal ideology enshrined in the law and the masculine ethos of the police and legal profession ensure

that women receive less justice and less protection She documents in detail the processes by which crimes against women

are trivialized The book combines a review of international research with the author s own five year exploration of policing in

the UK through interviews with officers observation and a review of record keeping practice It covers the introduction of new

policing policies and offers a preliminary assessment of their success together with practical proposals for the future At a

theoretical level this title addresses the key problems of criminality and punishment Is it possible to reconcile the feminist

critique of the marginalization of so called domestic violence with the radical critique of the punitive system as oppressive

and counterproductive Does the protection of women justify infringement of family privacy The book should be read in its

historical context by students of criminology law women s studies and sociology as well as those concerned with policies and
