

ARGUMENTATIVE ESSAY

What Is An Argumentative Essay?

The argumentative essay is one which is used to present an argument surrounding two sides of any particular issue. The essay can be written as a way of presenting both sides of the argument as equal or it might be written with one side taking preference over the other. This would be done when the writer has a specific opinion on the topic.

How To Write An Argumentative Essay

INTRODUCTION

This section is used as a way to get the attention of the reader and often includes a hook, the thesis statement and a general outline of what the essay is going to be about.

CONCLUSION

When writing a conclusion to an argumentative essay, the writer should sum up all of the points that have been made, present a call to action and refer to the thesis statement once again.

BODY

The body of the argumentative essay is used to present the initial argument along with any facts or data that support it.

COUNTERARGUMENT

The counterargument of the essay is a section dedicated to showing the opposing side of the argument that was previously discussed. Once again, facts and data should be included.

When writing this type of essay, there are two models which are usually used, these are the Rogerian model and the Toulmin model.

- The Rogerian model lays out two sides of an argument and gives weaknesses and strengths related to both. After this, the author can give a recommendation of his or her own thoughts based on the evidence provided.
- The Toulmin model will show an introduction to the subject using a claim or a thesis and will then present the reader with facts to support this claim. The author will then make use of warrants to show the reasons that this claim should be supported as well as ways it can be rebutted.

Topics For Argumentative Essays

- Everyone should receive a free education.
- Why are Americans getting more and more overweight?
- What is the relationship between fitness and food?
- Animals should not be used for research or experiments. Should those who destroy the rainforest face a punishment?
- The world's most corrupt country.
- Are school tests useful?
- Golf is a demanding sport.
- Swimming is the best form of exercise.
- Children should have limited access to the internet. Is the monarchy important?

Examples Of Argumentative Essays

Put A Little Science In Your Life Written By Brian Green

If we consider the ubiquity of personal computers, iPads and the net, it is not hard to see how science and technology have been woven into the very fabric of our day to day lives. When we see the benefits of things like MRI devices, CT scanners, arterial stents and pacemakers, we are able to appreciate immediately how science can affect our quality of life. If we assess the world's state and look at upcoming challenges such as climate change, pandemics, threats to security and a lack of resources, we won't hesitate to turn to science as a way of gauging the problems and finding a solution.

The Flight From Conversation Written By Sherry Tuckle

We have become accustomed to a way of being alone together. This is enabled by technology and we are then able to be with each other at the same time as being elsewhere, always connected to anywhere we wish to be. We want to be able to customise our lives and be able to move in and out of anywhere as the thing we most value is having control over where our attention is focused. We are used to the idea of being loyal to our party and being in a tribe.
