Economics: The User's Guide Ha-Joon

Chang,2015-10-20 From the internationally bestselling author and prizewinning economist a highly original guide to the global economy In his bestselling 23 Things They Don't Tell You About Capitalism Cambridge economist Ha Joon Chang brilliantly debunked many of the predominant myths of neoclassical economics Now in an entertaining and accessible primer he explains how the global economy actually works in real world terms Writing with irreverent wit a deep knowledge of history and a disregard for conventional economic pieties Chang offers insights that will never be found in the textbooks Unlike many economists who present only one view of their discipline Chang introduces a wide range of economic theories from classical to Keynesian revealing how each has its strengths and weaknesses and why there is no one way to explain economic behavior Instead by ignoring the received wisdom and exposing the myriad forces that shape our financial world Chang gives us the tools we need to understand our increasingly global and interconnected world often driven by economics From the future of the Euro inequality in China or the condition of the American manufacturing industry here in the United States Economics The User's Guide is a concise and expertly crafted guide to economic fundamentals that offers a clear and accurate picture of the global economy and how and why it affects our daily lives DEMOCRACY Joss Sheldon,2020-08-20 THEY SAY WE LIVE IN A DEMOCRACY WE ARE FREE AND WE SHOULD BE GRATEFUL But just how Free are we How democratic are our so called Democracies Is it enough to simply elect our leaders and sit back helpless as they rule over us like dictators What good is selecting our politicians if we cannot control our media police or soldiers If we must blindly follow our teachers and bosses commands whilst at school and in the workplace is it not a little naive to believe that we are the masters of our own destinies And if our resources are controlled by a tiny cabal of plutocrats bankers and corporations can we honestly say that our economies are being run for us Could things not be a little bit more well democratic Indeed they can Democracy A User's Guide shows us how Within the pages of this story filled book we shall visit Summerhill a democratic school in the east of England before stopping off in Brazil to check out Semco where workplace democracy is the name of the game We will travel to Rojava to explore life in a democratic army and head to Spain to see why Podemos is giving liquid democracy a go We shall travel back in time to see democracy at work in hunter gatherer societies tribal confederacies the guilds and on the commons We will consider the case for participatory budgeting deliberative democracy collaborative hiring community currencies peer to peer lending and much much more The message is clear and concise Democracy does not have to be a pipe dream We have all the tools we need to rule ourselves Get your copy of Joss Sheldon's masterpiece today
