

ELECTRIC WINDOWS

1. Driver's electric window switch
2. Passenger's electric window switch

These control, each on its respective side, the front window and the rear quarter panel window.

Manual operation

- Press the switch (to open) or pull it (to close) without going beyond the point of resistance.

The window stops as soon as you release the switch.

The rear quarter panel window can only open when the front window is completely open, after being inactive for one second.

- Press the switch past the point of resistance:

- a brief press opens the front window completely; then another brief press completely opens the rear quarter panel window,
- a long press opens the front window completely, then the rear quarter panel window.

• Closing

Only the front window on the driver's side closes automatically (engine running or vehicle being driven), when the rear quarter panel window is closed.

- Briefly pull the switch past the point of resistance to completely close the front window on the driver's side.

Note: the window switches are inoperative when the roof is being adjusted.

ELECTRIC MIRRORS

Turn knob 3 to the right or to the left to select the corresponding mirror.

Move knob 3 in all four directions to adjust.

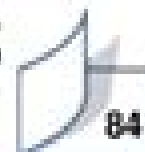

Electrically folding mirrors

With the ignition on, turn knob 3 to position A.

Automatic operation

• Opening

The windows open automatically (with the ignition key in the Running, Engine on position).
