Opening the roof

- Pull this control until the roof opening operation is complete.

The end of the manoeuvre is confirmed by an audible signal and a message on the multifunction display.

Closing the roof

- Press this control until the roof closing operation is complete.

The end of the manoeuvre is confirmed by an audible signal and a message on the multifunction display.

i If you continue to pull or press this control after the end of the manoeuvre, the four windows rise.

! To ensure that the roof operates correctly, do not release the control while the roof is moving.

However, in the event of any danger, release the control, the roof stops; then, once the danger had been eliminated, complete the movement required.

! Operating fault

If a malfunction of the roof occurs, apply the handbrake, switch off the ignition, start the engine again, then start the operation required again.

If the problem persists, contact a PEUGEOT dealer.

Change to "cabriolet" configuration:

- the four windows lower partially,
- the boot opens,
- the roof folds into the boot,
- the boot closes.

Change to "coupé" configuration:

- the four windows lower partially,
- the boot opens,
- the roof unfolds and locks automatically,
- the boot closes.

i The electric window controls and the control for all four windows are deactivated while the roof is in operation.

! The roof's electronic control unit may stop the manoeuvre in progress as a precaution (example: door movement and roof manoeuvre in quick succession). In this case, release the control then operate it again to complete the required manoeuvre.
