**Acreditación laboratorio clínico** David Burnett,1998 El objetivo de este libro es doble en primer lugar introducir el tema de sistemas de la calidad y de acreditación en el laboratorio clínico empleando materiales de diferentes sistemas y en segundo lugar proporcionar una fuente de información práctica para ayudar a los laboratorios a prepararse para la acreditación Durante la preparación queda claro que a nivel de países donde el inglés es la lengua más importante las definiciones de términos de uso común en el laboratorio como control de la calidad varían ampliamente y por tanto se ha tenido sumo cuidado en definir los términos utilizados y en suministrar la procedencia de la bibliografía

*Practical Guide to Modern Hematology Analyzers* Warren Groner,Elkin Simson,1995-12-05 In recent years there has been a widespread implementation of a new generation of hematology analyzers in the laboratory These modern cell counters have contributed significantly to our ability to automatically and precisely measure a variety of characteristics in different cell types including leukocyte sub classes which were previously determined only microscopically With this revolution in the hematology laboratory there have been enormous cost savings and there is clearly an opportunity to improve the quality of service Here the authors present a practical guide for the hematology laboratory professional They review the technology used in the new devices and the integration of the analyzers into the laboratory Performance of these counters and quality assurance strategies are also discussed paying particular attention to the state of the art technology its merits and the potential for future advances At present there is no other single guide to modern hematological cell counters which focuses on laboratory practice and treats all available technologies in depth This text written by authors who are internationally recognized for their research in this area will have a wide audience including laboratory directors hematologists pathologists administrators technologists and technicians involved in hematology and diagnostic testing medical practitioners and groups handling pharmaceutical trials
