Hocker, Eelco F. M. Wijdicks, 2018-11-13 Simulation in Acute Neurology is a reference on the execution of a simulation based educational program in the management of acute neurologic emergencies Simulation in Acute Neurology has practical value because it contains detailed descriptions of our simulation scenarios The foundation of this book is our experience with neurosimulation and it has been a very good one Part I provides an overview of the principles of simulation in medicine and examines the many unique opportunities simulation provides as an educational tool Barriers to simulating neurologic emergencies are also discussed Simulation allows a physician in training to be observed directly as he or she evaluates and manages acute neurologic disease Part II is the core of the book Fifteen acute neurologic emergencies including complex neuroethical quandaries are presented in detail step by step decision by decision error after error Each chapter in this section starts with an explanation of the essence of the discussed neuroemergency THE PROBLEM BEFORE US followed by a description of the scenario itself THE PRESENTING CLINICAL PROBLEM how scenarios can be adjusted to different types of learners ADAPTING THE SCENARIO and ends with a discussion of topics for feedback which are generally focused around errors and pitfalls DEBRIEFING To show the flow of scenarios we created two additional main headings THE IDEAL LEARNER and THE NOT SO IDEAL LEARNER A Christian from Egypt: Life Story of a Neurosurgeon Pursuing the Dreams for Quintuple Certifications RAMSIS F. GHALY MD FACS, 2015-01-23 This book is my life story as a Coptic Christian raised in Egypt Where no one from my family has ever moved away for thousands of years through the rise and falls of ancient pharaohs and deep roots of ancient Christianity It is also the story of my parents raising 10 children since 1953 in an environment of extreme poverty where resources and opportunities were limited with unrelenting prejudice towards Christian minorities So I came to the United States the land of opportunity and became a prominent American neurosurgeon among the only 4000 active nationwide and the only one nationally and internationally to achieve five board certifications in five acknowledged medical disciplines I continue to practice and serve the mission set before me My home land was once prosperous and rich in history Over the centuries it joined the downfall of the majority of the developing countries of the world through its economic crises and injustices to many It was the land for the fathers of early Christians and the foundation

for worldwide Christians Now the Coptic Christians are considered a minority constituting a mere 10% of the population and are joining the exodus of ancient Christians from their native African continent This book chronicles my journey from the land of history the land of my birth to the land of opportunity America It outlines the socioeconomic and political changes that Egypt has seen over the last century It is my hope that others may find inspiration and understanding of my culture through reading this book I owe it all to Christ the Lord my cherished parents my family and friends my teachers my mentors and especially my beloved patients     *Improving the Chain of Recovery for Acute Stroke in Your Community* National Institute of Neurological Disorders and Stroke (U.S.). Symposium,2003     **Cumulated Index Medicus** ,1998     **Pedretti's Occupational Therapy - E-Book** Heidi McHugh Pendleton,Winifred Schultz-Krohn,2011-12-20 Chapter on polytrauma post traumatic stress disorder and injuries related to the War on Terror teaches you how to provide OT services to this unique population Content covers new advances in prosthetics and assistive technologies and provides more up to date assessment and interventions for TBI problems related to cognitive and visual perception Full color design visually clarifies important concepts Video clips on the companion Evolve website vividly demonstrate a variety of OT interventions     *The Effective Clinical Neurologist* Louis R. Caplan,Joshua Hollander,2010-10 The Effective Clinical Neurologist presents the most systematic guide available for the doctor or medical student learning the art of the neurological examination and treatment The patient centered method is presented in logical steps walking the reader through the process in a clear and detailed yet personal style The authors begin by placing neurological medicine in its current cultural and economic environment and progress to presenting the specific process of interacting with the patient This book is the only guide to the art of achieving optimal doctor patient interaction and communication which are essential to the practicing neurologist The third edition of this classic reference is fully updated to include the impact of electronic communication and to incorporate the many technological advances that can be applied to the neurological evaluation Other changes in the environment in which the clinician practices include the changes in procedure brought about by managed care This edition is organized into four parts beginning with a section on the clinician neurologist and the scope methods and uniqueness of this area of medicine Part II focuses on the patient encounter the taking of a history systemic and neurological examination interpretation of tests giving the patient information and conducting the dismissal interview Case examples illustrate the methods discussed Part III presents the various types of encounters that occur including those that involve inpatient care outpatient care consultations and the inclusion of medical students and other trainees Medico legal aspects of neurological care are also presented Part IV concludes with a summing up of the approach to patient care that is presented in the book and offers 10 Commandments of Doctoring     **NIH Stroke Scale** National Institute of Neurological Disorders and Stroke (U.S.),2011\*
