Marshall's organization is a relatively young organization. The members are expected to be 18 or older and have attained at least an intermediate-high-school or college degree. However, members need not be students or college graduates. The club was the first in the United States that gave boys aged as low as 14 the opportunity to learn the principles of the program, and that engaged in meaningful service projects. As the organization's membership, programs, and the financial resources supporting the program grew, the program's membership was limited only to those in the United States and Canada. The club is a national organization that serves students, but whose main focus is the United States. The growth of the program is continuing unabated and should continue to grow.

Household expenditures across the border generally fell throughout 2011. But persistent unemployment and economic downturns in neighboring countries are expected to hit personal budgets hard in 2012, with the cost of the debt ceiling and repeat quarterly tax adjustments and stimulus reductions also adding to the pressure on the personal budget. Additionally, the regulatory burden on the insurance and pharmaceuticals are also expected to add pressure that you need your mother and those great little personal budget calculators to help you figure it out.

Multi-Sector Management Committees are currently being organized throughout the country and are intended to coordinate and monitor the implementation of the program. These committees will be responsible for the overall management of the program, including the selection of the local management committee, the selection of the local management committee members, and the selection of the local management committee members. The committees will also be responsible for the selection of the local management committee members, the selection of the local management committee members, and the selection of the local management committee members.
