Chemistry of Phytopotentials: Health, Energy and Environmental Perspectives LD Khemani,MM Srivastava,Shalini Srivastava,2011-12-02 Since the beginning of human civilization plants have been our true companions Plants contribute not only to our existence but also serve us through discovery design and the treatment of various diseases where there is no satisfactory cure in modern medicine This has focused Natural Product Chemists to unravel plants therapeutic potential in the light of modern analytical and pharmacological understandings Presence of multiple active phytochemicals in medicinal plants offers exciting opportunity for the development of novel therapeutics providing scientific justification for their use in traditional medicines Non food plants have been recognized as biofactories for the production of eco friendly value added materials including agricultural food products enzymes nutraceuticals etc They have also been widely explored for personal care industrial products and sources of energy generation The proven efficacy of botanicals has been appreciated by the scientific community and strengthened plant human relationship The synergism in the Phytoproducts the result of the interaction of two or more moieties is not simply additive but multiplicative Recent acceptance of the Food and Drug Administration US for herbal medicine based preparation has renewed interest in Natural Product Research The year 2011 is declared as the International Year of Chemistry IYC 2011 by the United Nations Assembly On this occasion the present conference CPHEE 2011 aims to offer chemists from diverse areas to come to a common platform to share the knowledge and unveil the chemistry and magic potentials of phytoproducts for the mankind **The Hive Mind at Work** Siobhan McHale,2024-09-03 Learn a new model for understanding how organizations really operate and implement changes that get real results With so many forces of change buffeting the business world today a scary state of flux has replaced any sense of certainty stability and familiarity delivering a wake up call to make crucial changes happen make them happen quickly and make them stick Traditional approaches to change management fall into one of two categories Organizations function like machines where managers pull change levers to fix problems with an engineer s mindset IQ Or People form social networks wherein individual influencers make change happen by developing effective interpersonal relationships EQ Neither of these models offer a full picture to what really happens in an organization In this groundbreaking new book change expert Siobhan McHale offers a third option organizations are complex ecosystems that require a Hive Mind or Group Intelligence GQ to bring about meaningful and lasting change We can learn a lot of lessons

from how bees operate Hard work An individual bee spends its entire 40 day life span gathering food for the hive Teamwork Inside each teeming beehive an entire community works collectively to achieve shared goals Role clarity Every bee has a specific job with the queen drones and worker bees faithfully playing their part Resilience Bees can overcome daunting challenges including all the parasites pathogens pesticides and climate fluctuations from Maine to Miami and beyond See how a hive mindset solves many of the common problems all businesses struggle with today **Transition Point: From Steam to the Singularity** Sean A. Culey,2018-11-06 We live in disruptive times The world is changing faster than ever before leaving people dazed businesses struggling economies floundering and societies fracturing But why Transition Point is the result of over five years of research to establish the answer a breathtaking tale of freedom unintended consequences and disruptive technologies that starts 1000 years ago and ends up in the second half of the 21st Century Starting with an examination into the drivers of technological change and the social economic and political factors that both enable or suppress it Transition Point explains why industrialisation happened where and when it did why progress comes in waves and why the technologies in the current wave such as robotics blockchain and AI are likely to be the most disruptive of all It then addresses the million dollar question what's next What impact will this wave have on our businesses our economies and most importantly on our society Culey explores how our current trajectory could result in a new golden age but also how it is just as likely to result in a digital dictatorship of compliance and constant surveillance Finally he explains why we may soon see Homo sapiens role as the dominant species come to an end As Klaus Schwab founder of the World Economic Forum stated We stand on the brink of a technological revolution that will fundamentally alter the way we live work and relate to one another In its scale scope and complexity the transformation will be unlike anything humankind has experienced before Transition Point explains why this is happening what it means and why the decisions we make now will prove to be critical
