News Report On Fashion In The 1920s

Patricia Anne Cunningham

News Report On Fashion In The 1920s:

Reforming Women's Fashion, 1850-1920 Patricia Anne Cunningham, 2003 This work focuses on the efforts toward reforming women's dress that took place in Europe and America in the latter half of the 18th century and the first decade of the 20th century and the types of garments adopted by women to overcome the challenges posed by fashionable dress. It considers the many advocates for reform and examines their motives, their arguments for change, and how they promoted improvements in women's fashion. Though there was no single overarching dress reform movement, it reveals similarities among the arguments posed by diverse groups of reformers, including especially the equation of reform with an ideal image of improved health. Drawing on a variety of primary and secondary sources in the USA and Europe, including the popular press, advice books for women, allopathic and alternative medical literature, and books on aesthetics, art, health, and physical education, the text makes a significant contribution to costume studies, social history, and women's studies.

Fashion from Victoria to the New Millennium, Second Edition Daniel Delis Hill, 2023-12-01 This survey of EuroAmerican fashion and style includes a detailed, thoroughly illustrated chronology of women's, men's, and children's dress since 1800. Each chapter covers in detail virtually all categories of clothing, including day attire, evening dress, outerwear, sportswear, and swimwear; undergarments; sleepwear; accessories; footwear; hats; hairstyles; and grooming; and more. Over 1,000 illustrations visually document the past 200 years of fashion and style. Each era is introduced with an overview of the history and cultural developments that impacted modern fashion.

The analysis covers social, political, and economic aspects of fashion. It also addresses journalism ethics, fashion show reporting, and the decline in fashion journalism editor positions.

Redefining Journalism in the Era of the Mass Press, 1880-1920 John Steel, Marcel Broersma, 2018-02-02 At the turn of the 20th century, the significant social, political, and technological changes that were occurring in society also heralded new roles and functions for journalism as a profession and as an aspect of a burgeoning mass-mediated society. *Redefining Journalism in the Era of the Mass Press, 1880-1920* examines journalism's roles, products, and practices during an era of rapid change and transformation and how these changes within the field reflected broader social, political, economic, and technological changes. The era of the mass press was one within which the speed and impact of change both reflected and contributed to transformations in journalism, transformations that would endure until the rise of the Internet disrupted the field once again. This book was originally published as a special issue of *Media History*.

History of World Dress and Fashion, Second Edition Daniel Delis Hill, 2022-01-13 The *History of World Dress and Fashion* presents a comprehensive survey of dress from around the world, including China, Japan, India, Africa, the Islamic Empire, and the Ancient Americas. Journalists often claim that they write the first draft of history but few historians examine the press in detail when preparing later drafts This book demonstrates the value of popular newspapers as a historical source by using them to explore the attitudes and identites of inter war Britain and in particular the reshaping of femininity and masculinity It provides a fresh insight into a period of great significance in the making of twentieth century gender identities when women and men were coming to terms with the upheavals of the Great War the arrival of democracy and rapid social change The book also deepens our understanding of the development of the modern media by showing how newspaper editors in the fierce competition for readers developed a template for the popular press that is still influential today **As Seen in Vogue** Daniel Delis Hill,2004

The Exhibitor as Producer Richard Abel,2024-12-28 This open access book seeks answers to a series of questions about the little studied subject of prologues or theatrical presentations in American movie theaters from the late 1910s to the mid 1920s How did prologues emerge out of prior practices Who were the exhibitors most involved What characteristics would come to define prologues How widespread did they become not only in metropolitan palace cinemas but also in movie theaters in mid sized cities and even small towns If they generally created an atmosphere that complimented or harmonized with the feature films could they also be what at the time was called contrastive Who were the performers in these theatrical presentations Were prologues ever described in ads and audience responses as a program s main attraction and to what effect The book comprises five chapters and up to a hundred photographs of prologue stage settings Moreover supplementing each chapter is one or more relevant trade press documents Overall the chapters construct a set of practices and typologies that came to define the theatrical presentations that typically preceded the feature films They also advance this argument the variety format of combined stage and screen performance in movie theaters has a longer and unexpectedly revealing history than usually assumed In short an exhibitor would have a certain degree of creativity in his her programming which in turn could strongly impact an audience s movie going experience *Imperial Culture in Antipodean Cities, 1880-1939* J. Griffiths,2014-03-11 Drawing on a wealth of primary and secondary sources this book explores how far imperial culture penetrated antipodean city institutions It argues that far from imperial saturation the city Down Under was remarkably untouched by the Empire

Fashioned in the North Anna Dahlgren,2020-07-15 This edited volume showcases new examples previously untold stories

of images photographers publications and institutions partly unknown outside the Nordic countries The authors examine the reasons for and implications of this underexposure taking on a photographic metaphor While simultaneously challenging previously taken for granted ideas of the center and periphery in this field the book also widens the study of fashion photography Notably the hybridity of approaches may enrich future studies of fashion photography In Fashioned in the North fashion photography is viewed as a transnational phenomenon and a material object as well as a medium that is part of a media system and a result of archival systems and history writings Furthermore the book displays how studies of fashion photography can be so much more than stories of a few names and iconic images or studies of individual and periodic style Indeed the study of fashion photography may be a prism through which we can uncover cultural social economic and ideological aspects of society at present and in the past
