

B4.2 Ecological Niches

This document provides a simple and basic checklist that quickly outlines each assessment statement from the syllabus on ecological niches. It's designed to give you a comprehensive overview of the topic without overwhelming you with excessive details.

Use this resource as a great starting point to get the bigger picture of how organisms occupy different roles within ecosystems. The key understandings presented here will help you navigate your revision plan more effectively.

As you work through the document:

- Tick off the checkboxes (□) which indicate important concepts you feel you understand with confidence
- Use the structured sections to organize your study approach
- Note how concepts connect across different sections (from niche concepts to specific adaptations)
- Refer to the summary tables and key takeaways to consolidate your understanding

This checklist covers essential topics from basic niche concepts to specialized adaptations for different modes of nutrition and ecological roles, providing you with a solid foundation for more in-depth study.

After reviewing this document, you'll be better positioned to identify areas where you need additional study and to develop a more targeted revision strategy.

Good luck with your studies!
