Nietzsche And Asian Thought:

Nietzsche and Asian Thought Graham Parkes, 1991-10-08 Friedrich Nietzsche's work has had a significant impact on the intellectual life of non Western cultures and elicited responses from important thinkers outside of the Anglo American philosophical traditions as well. Bringing together thirteen internationally renowned scholars this is the first collection of essays to address the connection between Nietzsche's ideas and philosophies in India China and Japan. The contributors are Roger T Ames, Johann Figl, Chen Guying, Michel Hulin, Arifuku Kogaku, David A Kelly, Glen T Martin, Sonoda Muneto, Graham Parkes, Okochi Ryogi, Eberhard Scheiffele, Mervyn Sprung, and Joan Stambaugh. Exemplary. Its comparative approach is incisive yet accessible. I consider it a must read. Kathleen Marie Higgins, *Philosophy East and West*. An excellent introduction to the broad ranging reception of Nietzsche among Asian thinkers. James R Watson, *Canadian Philosophical Review*. The essays in this welcome collection are invariably thought provoking and genuinely cross disciplinary. Kenneth Surin, *Religious Studies Review*. A worthy and undogmatic introduction to several fascinating questions concerning the relations between Nietzschean thought and certain traditions of thought in India China and Japan. Don Miller, *Asian Studies Review*.

Heidegger and Asian Thought Graham Parkes, 1987-09-01 In 12 excellent essays by scholars East and West this collection explores the many dimensions of Heidegger's relation to Eastern thinking. Because of the quality of the contributions the eminence of the many contributors this volume must be considered an indispensable reference on the subject. Highly recommended. Choice. *Nietzsche and Asian Thought* North American Nietzsche Society, 1993. **Nietzsche and Asian**

Thought Graham Parkes, 1996-06 Nietzsche's work has had a significant impact on the intellectual life of non Western cultures and elicited responses from thinkers outside of the Anglo American philosophical traditions as well. These essays address the connection between his ideas and philosophy. Heidegger and Asian Thought Graham Parkes, 2010-07-01 In the current resurgence of interest in Heidegger an important aspect of his thought has been neglected namely his long standing interest in Asian philosophy. *Heidegger and Asian Thought* is the first book devoted to exploring this fascinating topic. It brings together essays by twelve scholars from India China Japan Germany and the United States most of which were written especially for this volume. The essays discuss Heidegger's thinking in relation to Vedanta Taoism Zen and Tibetan Buddhist philosophy. Heidegger's acquaintance with Asian thought beginning from his familiarity with the Chuang tzu as early as 1930 is fully documented including an account of his work on a partial translation of the Tao Te Ching into German. This book will be of interest not only to Heidegger scholars but also to students of Asian and comparative philosophy and religion.

Deconstruction and the Ethical in Asian Thought Yougu Wang, 2007-03-06 The striking parallels between Derrida's deconstruction and certain strategies eschewing oppositional hierarchies in Asian thought especially in Buddhism and Daoism have attracted much attention from scholars of both Western and Asian philosophy. This book contributes to this discussion by focusing on the ethical dimension and function of deconstruction in Asian thought. Examining different

traditions and schools of Asian thought including Indian Buddhism Zen other schools of East Asian Buddhism the Kyoto School and Daoism the contributors explore the central theme from different contexts and different angles Insights and notions from the contemporary discussion of Derridean deconstruction and its ethic or Derridean Levinasian ethic as a paradigm for comparison or interpretation are used as a framework Furthering our understanding of the relationship between deconstruction and the ethical in Asian traditions this book also enriches the contemporary ethical discourse from a global perspective by bridging Asia and the West

Emotions in Asian Thought Joel Marks, Roger T. Ames, Robert C. Solomon, 1995-01-01 Treats the nature and ethical significance of emotions from a comparative cultural perspective emphasizing Asian traditions

Heidegger on Eastern/Asian Thought Lin Ma, 2024-06-30 This Element elucidates the metamorphoses of Heidegger's comportment toward Eastern Asian thought from the 1910s to the 1960s With a view to the many meanings of the East at play in Heidegger's thinking it considers how his diversified dialogues with the East are embedded in different phases of his *Denkweg* Various themes unexplored previously are examined Heidegger's early treatment of near Eastern traditions and Islamic philosophy his views on alien cultures the primitive *Dasein* and the mythical *Dasein* and his meditation on Russianism's deeply rooted spirituality and its recuperative possibilities for the West Finally this Element reveals how Heidegger opened the promise of a dialogue with the East and yet stepped back from the threshold and how his move from the Occidental line of philosophizing toward the Oriental line is integral to his shift from the guiding question of Being to the abyssal question of Being

Nietzsche's Futures John Lippitt, 2016-07-27 What are the roles of human exemplars moral perfectionism and noble ethics in our self-overcoming What place does laughter have in Nietzsche's vision of the future What contribution can Nietzsche make to the issue of humanity's relation to the natural world in an age of ecological crisis This wide-ranging collection of essays explores various aspects of Nietzsche's thought centred around the general issue of futurity Contributors include such leading Nietzsche scholars as Keith Ansell Pearson Daniel W. Conway Kathleen Higgins Laurence Lampert and Graham Parkes

Foucault's Orient Marnia Lazreg, 2017-10-01 Foucault lived in Tunisia for two years and travelled to Japan and Iran more than once Yet throughout his critical scholarship he insisted that the cultures of the Orient constitute the limit of Western rationality Using archival research supplemented by interviews with key scholars in Tunisia Japan and France this book examines the philosophical sources evolution as well as contradictions of Foucault's experience with non-Western cultures Beyond tracing Foucault's journey into the world of otherness the book reveals the personal political as well as methodological effects of a radical conception of cultural difference that extolled the local over the cosmopolitan

Psychedelic Immortality: Nietzschean Perspectives

on Reincarnation, Femtheogens, and Philosophy Joseph I. Breidenstein Jr.,2025-09-02 Recent research has revealed a psychedelic inspiration for Nietzsche's philosophy and far from being a novelty in the history of philosophy there is significant evidence that several of the first western philosophers ingested psychedelics as well In his first book Joseph I Breidenstein Jr PhD maintained that western philosophy began as what we today would call a feminist religious reformation in the sense that many prominent presocratic philosophers were reviving a paleo neolithic goddess centered religiosity of rebirth within the largely patriarchal and death glorifying culture of archaic Greece And in this book Dr Breidenstein Jr proposes that the presocratics psychedelic reincarnationist feminine model of education and or worldview is better suited for democracy in the twenty first century than the economic model of education that takes the west's mainstream materialistic secular worldview for granted For several decades now researchers have acknowledged both that the empirical evidence for reincarnation is overwhelming and that psychedelics can evoke past life recollections but explanations for either reincarnation or how psychedelics do this have yet to be offered By combining Nietzsche's philosophy with the work of other thinkers Psychedelic Immortality both provides explanations for each of these phenomena and explores how situating education and democracy within the context of reincarnation can incite a renaissance of American culture and politics For Nietzscheans and philosophers in particular this book illustrates the contemporary relevance of two neglected aspects of Nietzsche scholarship i e psychedelics and reincarnation and for researchers in such fields as feminist philosophy of religion ecotheology philosophy of education social political philosophy and eastern philosophy it offers a more plausible and healthier worldview in which to explore possibilities in their respective fields that are diminished by the mainstream paradigm For spiritual seekers of all paths it offers a conception of philosophy as a practice of awakening goddess consciousness that unfolds over the course of successive lifetimes

Asian Thought on China's Changing International Relations Emilian Kavalski,2014-08-05 At the end of the Cold War commentators were pondering how far Western ideas would spread today the debate seems to be how far Chinese ideas will reach This volume examines Chinese international relations thought and practices identifying the extent to which China's rise has provoked fresh geo strategic and intellectual shifts within Asia

Culture And Self Douglas B. Allen,Ashok Malhotra,2018-02-02 Traditional scholars of philosophy and religion both East and West often place a major emphasis on analyzing the nature of the self In recent decades there has been a renewed interest in analyzing self but most scholars have not claimed knowledge of an ahistorical objective essential self free from all cultural determinants The contributors of this volume recognize the need to contextualize specific views of self and to analyze such views in terms of the dynamic dialectical relations between self and culture An unusual feature of this book is that all of the chapters not only focus on traditions and individuals East and West but include as primary emphases comparative philosophy religion and culture reinforcing individual and cultural creativity Each chapter brings specific Eastern and Western perspectives into a dynamic comparative relation This comparative orientation emphasizes our

growing sense of interrelatedness and interdependency *Cross-Cultural Existentialism* Leah Kalmanson, 2020-09-17

Engaging in existential discourse beyond the European tradition this book turns to Asian philosophies to reassess vital questions of life's purpose, death's imminence and our capacity for living meaningfully in conditions of uncertainty. Inspired by the dilemmas of European existentialism, this cross-cultural study seeks concrete techniques for existential practice via the philosophies of East Asia. The investigation begins with the provocative writings of twentieth-century Korean Buddhist nun Kim Iryop, who asserts that meditative concentration conducts a potent energy outward throughout the entire karmic network, enabling the radical transformation of our shared existential conditions. Understanding her claim requires a look at East Asian sources more broadly. Considering practices as diverse as Buddhist merit-making ceremonies, Confucian Ruist methods for self-cultivation, the ritual memorization and recitation of texts, and Yijing divination, the book concludes by advocating a speculative turn. This speculative existentialism counters the suspicion toward metaphysics characteristic of twentieth-century European existential thought and at the same time advances a program for action. It is not a how-to guide for living but rather a philosophical methodology that takes seriously the power of mental cultivation to transform the meaning of the life that we share.

Nietzsche and Zen André van der Braak, 2011-08-16

In *Nietzsche and Zen: Self-Overcoming Without a Self*, André van der Braak engages Nietzsche in a dialogue with four representatives of the Buddhist Zen tradition: Nagarjuna c. 150-250, Linji d. 860, Dogen 1200-1253, and Nishitani 1900-1990. In doing so, he reveals Nietzsche's thought as a philosophy of continuous self-overcoming in which even the notion of self has been overcome. Van der Braak begins by analyzing Nietzsche's relationship to Buddhism and status as a transcultural thinker, recalling research on Nietzsche and Zen to date and setting out the basic argument of the study. He continues by examining the practices of self-overcoming in Nietzsche and Zen, comparing Nietzsche's radical skepticism with that of Nagarjuna and comparing Nietzsche's approach to truth to Linji's. Nietzsche's methods of self-overcoming are compared to Dogen's zazen or sitting meditation practice, and Dogen's notion of forgetting the self. These comparisons and others build van der Braak's case for a criticism of Nietzsche informed by the ideas of Zen Buddhism and a criticism of Zen Buddhism seen through the Western lens of Nietzsche coalescing into one world philosophy. This treatment focusing on one of the most fruitful areas of research within contemporary comparative and intercultural philosophy will be useful to Nietzsche scholars, continental philosophers, and comparative philosophers.

Nietzsche's Life Sentence Lawrence Hatab, 2013-05-13

In this book, Lawrence Hatab provides an accessible and provocative exploration of one of the best-known and still most puzzling aspects of Nietzsche's thought: eternal recurrence, the claim that life endlessly repeats itself identically in every detail. Hatab argues that eternal recurrence can and should be read literally in just the way Nietzsche described it in the texts. The book offers a readable treatment of most of the core topics in Nietzsche's philosophy, all discussed in the light of the consummating effect of eternal recurrence. Although Nietzsche called eternal recurrence his most fundamental idea, most interpreters have found it

problematic or needful of redescription in other terms For this reason Hatab's book is an important and challenging contribution to Nietzsche scholarship *Death and Philosophy* J.E. Malpas, Robert C. Solomon, 2002-06-01 *Death and Philosophy* considers these questions with different perspectives varying from the existentialist deriving from Camus Heidegger or Sartre to the English speaking analytic tradition of Bernard Williams or Thomas Nagel to non western approaches such as are exemplified in the Tibetan Book of the Dead and in Daoist thought to perspectives influenced by Lucretius Epicurus and Nietzsche *Death and Philosophy* will be of great interest to philosophers or those studying religion and theology but its clarity and scope ensures it will be accessible to anyone who has considered what it means to be mortal

Japanese and Continental Philosophy Bret W. Davis, Brian Schroeder, Jason M. Wirth, 2011-01-13 Recognizing the importance of the Kyoto School its influence on philosophy politics religion Asian studies this text seeks to initiate a conversation between Japanese Western philosophers **Nietzsche's Therapy** Michael Ure, 2008-01-01 Nietzsche's Therapy explores the ethics of self cultivation that Nietzsche forged in his middle works
