interpretation of the new statutory provisions by the courts although chapter authors draw extensively on examples from other jurisdictions to critically analyse choices made in the UK and in some cases offer separate evaluation of restructuring law reform processes outside the UK including in select jurisdictions in the EU and in Africa and in the US By drawing on experiences in other jurisdictions and on insights from theory the book casts new light on recent developments in English law suggesting many avenues for further research and a range of implications for policymakers These implications are brought out in an introductory chapter by the editors introducing the landmark 2020 reforms This chapter provides a detailed synopsis of each chapter of the book drawing out connections between them and articulates some themes that run through the chapters that are salient for policymakers
