Lynette Hartsell, 2018-09-20 *Stanly Has A Lynching* examines the ways in which the media as well as religious political and social institutions have used ballads fiction and folklore tales for over a century to celebrate rather than condemn the brutal lynching of a white man Alexander Whitley in 1892 How men in a small town in North Carolina justified this act of murder as Just Desert before during and after the event is exposed when facts rather than fiction are brought into focus Through her research and analysis Ms Hartsell demonstrates how a family legacy was tainted by a fabricated folktale embedded in religious motif Many newspaper accounts from the 1800 s help tell the story conveying aspects of southern history and Lynch Culture not often found in textbooks *The Living Age*, 1899 Picking Fights with

the Gods Paul Gilk, 2016-08-04 The common understanding of apocalypse suggests End Times Armageddon and the end of the world But the Greek word apokalypsis means none of these things What it does mean is uncovering disclosing and revelatory That apocalypse is so widely misunderstood as predestined disaster isn't due to natural evolution in meaning To penetrate the misuse of apokalypsis is to discover mythic misrepresentation That is apocalypse doesn't generate End Times but just the opposite End Times compels apokalypsis The actual threat of End Times explicitly so with weapons of mass destruction and Anthropocene climate change forces thoughtful people into a search for fundamental causes Where do these destructive energies originate Why are we so reluctant to recognize the obvious consequences and resistant to embrace available remedies Why do we persist in denial and indifference In these essays Paul Gilk explores the underlying cultural and religious conventions both conservative and liberal that constitute our resistance and refusal To disclose and uncover those conventions to dissolve our oblivion is to awaken to apokalypsis and to realize the depth of our captivity within prevailing mythology both religious and civilizational If End Times is the disease apokalypsis is the cure *Eclectic Magazine and Monthly Edition of the Living Age*, 1899

Modern Death in Irish and Latin American Literature Jacob L. Bender, 2020-09-22 This comparative literature study explores how writers from across Ireland and Latin America have both in parallel and in concert deployed symbolic representations of the dead in their various anti colonial projects In contrast to the ghosts and revenants that haunt English and Anglo American letters where they are largely either monstrous horrors or illusory frauds the dead in these Irish Latinx archives can serve as potential allies repositories of historical grievances recorders of silenced voices and disruptors of neocolonial discourse *Eclectic Magazine, and Monthly Edition of the Living Age* John Holmes Agnew, Walter Hilliard Bidwell, Henry T. The Soviet Union Approach to Negotiation United States. Congress. Senate. Government Operations, 1969 **How Nations Negotiate** Fred Charles Iklé, 2024-11-18 During the period in which How Nations Negotiate germinated Iklé was associated with three of the leading American groups concerned with research on international relations at the RAND Corporation at Harvard's Center for International Affairs under whose auspices the book was written and at Massachusetts Institute of Technology where he is now a professor All three groups must have been greatly invigorated by this fresh attack on a neglected field of inquiry Science A praiseworthy attempt to bring some sort of order and cultivation into what might previously have been described as a briar patch rather than a field The method of the book illustrates how far we are from anything that might truly be called a science of international systems an excellent work well written and entertaining and even those who hope for better things can read it with profit American Journal of Sociology It is a most welcome occurrence that Fred C Iklé has explored the risky ground of international negotiation has skillfully handled historical materials memoirs and reports of negotiations and has speculated about attitudes expectations intentions and perceptions without disguising uncertainties World Politics By concentrating on the process or processes of negotiation Iklé shows in considerable detail how much more complex the tasks

of diplomats or negotiators have become in a revolutionary age of nuclear struggle ideological conflict competing and confused conceptions of nationalism domestic pressure groups and so on The author illustrates with a wealth of detail from contemporary diplomatic history especially and has benefited from interviews with more than fifty diplomats in major capital cities of the West One is happy to recommend this closely knit analytical work The Annals of the American Academy of Political and Social Science Diplomacy is still more of an art than a science but perhaps in the nuclear age a systematic analysis of one of its prominent techniques namely negotiation may be useful as a supplement to the standard works on diplomatic practice and the memoirs of practicing diplomats Such an analysis might well be undertaken by a scholar trained in behavioral research rather than by a professional diplomat The volume under review admirably meets these specifications Professor Ikl has effectively combined research in the records of diplomacy in recent years interviews with persons who have had extensive experience in negotiation mostly Americans and Europeans and clinical analysis The American Political Science Review Ikl has written a systematic and thorough study of inter nation state negotiations How Nations Negotiate will doubtlessly receive greatest circulation among students of diplomacy and international relations But the insights provided by Ikl s book should prove stimulating as well for those interested in labor management relations ILR Review
