

Cause and Effect Essay on Obesity

"Despite poverty being a major concern globally, obesity is still a dominant factor of all. This clearly represents an imbalance which is faced throughout the world. Obesity being a serious condition can cause other diseases and conditions such as diabetes, heart problems, kidney problems, and ultimately death. Being overweight doesn't only represent medical problems, but also some social problems such as low self-esteem, criticism, lack of enthusiasm etc. There are billions of obese people around the globe presently and is growing at a very faster rate (CNN). The most important countries in which the rate of obesity is higher, have certain causes leading to obesity ultimately, that needs to be discovered.

In contrast to the most believed opinion, United States is not counted as the most obese country in the world. In fact, U.S comes on the 12th number according to the list of obese countries in the world. The first on the list with a high rate of obesity is Nauru; a small island close to Australia. On the obesity list, according to the research, are those islands that are usually small nations such as Tonga, Samoa, Kiribati etc. To be exact, four out of every five citizens in these nations are obese. The reasons as evident are the imported food on such islands that are very expensive, so people opt for less expensive junk foods and foods that are more convenient to them. Apart from the food, the environment of these islands is such that they are more conducive for relaxation and less for proper exercise. These reasons make it difficult to maintain good health appropriately.

Next in the line after the islands are the Middle Eastern countries. Almost 75 percent of these countries' population are considered to be overweight and more than third are considered to be obese (World Atlas). The reasons for such large people being faced with the issue is that these countries have a scorching sun and the days are as hot as 40 degrees Celsius. In such conditions, it becomes extremely difficult to walk around and exercise for burning calories, rather people are already irritated by the sweat in such hot weather. Moreover, the eating habits and food over there are also changing bringing about habitual change. Many of the people owning lands over there are even more relaxed and rich. Such lack in movement makes people there, to gain more weight and obese.

Lastly, obesity being a global catastrophe, middle-eastern nations, islands, and many similar nations are living under such sufferings caused by it. Lack of proper access to good food, lack of regular exercise, and wealth etc. contribute to the tremendous problem of obesity. These conditions increasing faster with the time can bring even more catastrophic results. What is going to happen if it continues at the same pace? Let the time decide. "

your child you're not alone. Even though the Common Core ELA has been adopted by 45 states across the nation, if you're accustomed to traditional English courses, you may be having a hard time understanding what your kids are bringing home from school and why. *The Everything Parent's Guide to Common Core ELA Grades 6-8* can help. With easy-to-understand examples, comprehension tips, and practice exercises, this comprehensive guide will explain what your child will be learning in 6th, 7th, and 8th grade; the types of books and passages your child will be reading; the new requirements and the rationale for reading nonfiction texts; the focus on finding evidence and formulating arguments; the reasoning behind the Common Core English Language Arts standards. This valuable reference book will give you the confidence to help your kids meet the ELA expectations for their grade level, excel at school, and prepare for high school and beyond. [The Essay Connection](#) Lynn Z. Bloom, 2004. This collection of 83 rhetorically arranged essays offers strong guidance to student writers. Part I presents clear practical advice on the art of writing. Part II helps students determine ideas in a sequence. Part III focuses on clarifying ideas. Part IV shows students how to write direct and indirect arguments, and Part V provides a controversy in context. The writing process is consistently reinforced throughout the text. An argument casebook, *Controversy in Context: Implications of World Terrorism and World Peace*, presents 17 readings: true stories, poetry, and essays from a political scientist, a philosopher, a novelist, a critic, and a historian that help students focus on the most significant issues of the 21st century. Student writing samples featured in 11 complete essays and in excerpts from 13 notebooks provide students with realistic models and show the writing process at work. *The St. Martin's Guide to Writing* Rise B. Axelrod, Charles R. Cooper, 2010-01-26. This textbook provides instruction in college-level rhetoric and writing. It offers readings, a research manual, a handbook, and supports a range of approaches to teaching and learning, including collaboration, visual rhetoric, personal writing, writing about literature, writing in the community, and the workplace. Field research, portfolios, oral presentations, essay exams, and ESL. It contains step-by-step guides to writing specific kinds of essays: remembering events, writing profiles, explaining a concept, finding common ground, arguing a position, proposing a solution, justifying an evaluation, speculating about causes, and interpreting stories. Because so much college writing requires strong argumentation skills, four of the assignment chapters focus on argumentative writing, and a separate strategies chapter covers theses, reasons, and support, counterarguments, and logical fallacies. Three full chapters on research give students useful strategies not only for conducting field, library, and Internet research but also for evaluating sources, deciding whether to quote, paraphrase, or summarize, avoiding plagiarism, and documenting sources. The authors have included 39 readings by well-known authors and various fresh voices, including 12 students providing well-written examples of the different types of essays and papers that students might be asked to complete.
