Plus, you get powerful insights into the growth of modern home care. The role of competency programs in staff recruitment and retention, and how to get it done in any organization, regardless of background, makeup, or affiliation.

Geriatric Dermatology R.A. Norman, 2020-08-26. Over the past few years, the world's population has continued on its remarkable transition from a state of high birth and death rates to one characterized by low birth and death rates. Consequently, primary care physicians and dermatologists will see more elderly patients presenting age-related dermatological conditions. There has never been a better time for a book devoted entirely to skin care in the elderly. *Geriatric Dermatology* draws together a panel of experts who provide an overview of the diagnosis and treatment of geriatric skin diseases. It begins with a general review of the aging of the world's population and the major dermatological problems that often arise in elderly patients. An added benefit is the book's coverage of geriatric skin care in nursing homes, adult congregate living, and subacute and home health settings, a subject not always found in conventional dermatology texts. The book includes a summary of the dermatological disorders frequently encountered in the elderly, including eczematous dermatitis, skin infections, and neoplasias. A description of the most common geriatric hair and scalp disorders, including graying, alopecia, and scalp psoriasis. Comprehensive coverage of the diagnosis and treatment of leg, foot, and nail diseases. Detailed discussion of the treatment of superficial mycoses, scabies, and pediculosis. Less common geriatric conditions such as blistering diseases. Major adverse drug reactions on the skin. Leg ulcers due to venous insufficiency, arterial diseases, and diabetic nephropathy. Diagnosis and treatment of diabetic complications of dermatology, such as scleroderma and dermopathy. The study of diseases that impact the elderly population is a crucial and growing area of interest in medicine. Geriatricians, primary care physicians, dermatologists, and others involved in the care of the elderly will inevitably see an increase in skin diseases specific to aging. The comprehensive coverage provided by *Geriatric Dermatology* facilitates the diagnosis and management of these geriatric skin diseases, from the common to the rare and unusual.

Lewis's Medical-Surgical Nursing 6th Australia and New Zealand Edition Diane Brown, Thomas Buckley, Robyn Aitken, Helen Edwards, 2023-11-28 Lewis's Medical Surgical Nursing has long been considered a comprehensive and reliable resource for nursing students preparing for their transition into clinical practice. This sixth edition has been fully updated to incorporate the latest research data, current clinical practice procedures and guidelines. The text addresses core skills and knowledge that students need to pass their exams and go on to provide expert clinical care. It prepares nurses to assess patients, understand underlying diseases and their signs and symptoms, and go on to plan and deliver care. The text encourages readers to develop their clinical reasoning and problem-solving skills in order to apply theory to their work. This edition has been produced by leading expert nursing academics and clinicians who bring a strengthened focus on inclusion and diversity. Provides a person-centred holistic approach to patient assessment and care. Complex concepts are illustrated with figures, tables, summaries and reflections of best practice.
