☐ Original Island (small seeds) ☐ New Island (large seeds)

Partner #2	Trial #3	
	Trial #4	
Average		

5. Calculate the average number of seeds obtained during the four trials. Round off to the nearest seed. If you or your team collected an average of 13 seeds or more per trial, you can go on to Round Three. If you or your team collected fewer than 13 seeds per trial, you are now eliminated. Your beak was a terrible variation and you are now extinct.

Round Three: Increased Competition

During this round, you will be competing with all of the other finch species left alive on your island. In other words, all of the finch people or teams that were successful at feeding on small seeds will compete at one dish containing small seeds. At the same time, all of the finches successful at feeding on large seeds during Round Two will compete at one dish of large seeds.

6. In the "Round Three: Feeding with Increased Competition" data table, indicate whether you are feeding on small or large seeds. Complete four trials as before and record the results of each trial and your average.

Round Three: Feeding with Increased Competition

Put a check in the box below that represents the island that you are on.
