The Armed Forces Covenant in action? Great Britain: Parliament: House of Commons: Defence Committee, 2013-07-18

A series of Ofsted inspections on Army Apprenticeships conducted in 2013 rated the overall effectiveness as good This was an improvement over the last inspection in 2009 rated as satisfactory now called requires improvement

Some 28 per cent of Army recruits were less than 18 years of age Further information is needed on why the Army is so dependent on recruiting personnel under the age of 18 years compared to the other two Services and whether steps are being taken to reduce this dependency

Of those recruited in 2012 3 5 per cent of the Army were rated at entry level 2 for literacy that of a 7 to 8 year old and 39 per cent had a literacy level of an eleven year old

If as the MoD states it has to recruit personnel at whatever level of attainment is available then it should boost remedial action when recruitment entry standards are particularly low

In light of changes brought about by Future Force 2020 it may be that recruiting personnel with higher levels of attainment would better meet the future needs of the Armed Forces

Whilst the Committee recognises that some recruits may not be eager to take further academic exams the MoD should encourage more recruits to undertake English and Maths GCSEs which would stand them in good stead for future employment

The MoD has carried out some useful pilot projects with paramedic training and should identify more potential projects to ensure that vital skills paid for by the MoD are not lost to the country

HC 712 - The Work of the Immigration Directorates (January - June 2014) Great Britain. Parliament. House of Commons. Home Affairs Committee, 2014

In 1998 the previous government abolished exit checks paper based embarkation records of passengers departing from the UK because they were too resource intensive

Those universal exit checks were replaced by an intelligence led approach using CCTV and greater liaison between border agencies port operators and transport carriers

This approach was subsequently superseded by the e Borders programme announced in February 2005

The e Borders programme has stalled and was terminated in March 2014 and that the Home Office would be replacing individual systems such as the Warnings Index and Semaphore separately

At the moment data for air passengers travelling in and out of the UK is sourced from carrier lists known as Advanced Passenger Information API

Air passengers buy tickets in advance and check in a reasonable time before departure so API coverage is good about 80% and increasing

Coverage is not so good for rail and

ferry passengers partly because of the ticketing systems and partly because customers can decide to travel buy a ticket and have checked in at a time near to departure Both the Minister and the Director General of Border Force have assured the Committee that 100% exit checks will be in place by 31st March 2015 To deliver exit checks the Home Office needs to find a mechanism that can count all of the rail and maritime passengers as they depart the UK by the end of March Exit checks will be carried out by the transport operators staff not Border Force The Committee hope this can be delivered

Reconstructing Teaching Ian Hextall, Pat Mahony, 2013-04-15 One of the greatest resources a school has is its staff How teachers themselves and their work are defined are therefore matters of utmost importance Major trends of increased control and new managerialism are occurring in most OECD countries radically altering both the content and form of teacher education This book outlines recent changes in teacher education and professional development and by drawing on recent research findings explores the positive and negative impacts on the nature of teaching and the shape of the profession

Gender, Education and Work Christine Eden, 2017-03-27 Girls outperform boys in educational achievement yet women in work are less well paid are underrepresented in positions of power and carry a disproportionate burden of care and childcare Gender Education and Work analyses and interprets the latest data and research in the field to offer detailed historical and sociological explanations for this continuing inequity exploring different dimensions of inequality and how they intersect With discussion questions and selected further reading to support reflection on your own understanding and assumptions it covers key topics Historical approaches to the education of girls and women Key theories and debates Patterns of achievement and intersectionality Attainment gaps and socio economic status Ethnicity and attainment gaps Gender in the classroom and gender identity in schools Patterns of employment and the nature of work The gender pay gap Women's experience of work Gender Education and Work provides the arguments together with the historical evidence and research data required by serious education studies and sociology students engaged in the analysis of this urgent and complex topic **2012 GCSE**

English results Great Britain: Parliament: House of Commons: Education Committee, 2013-06-11 The 2012 GCSE English results prompted significant controversy which ultimately resulted in an application for judicial review This report sets out the background to these events and identifies lessons to be learned The problems with GCSE English can be traced back to the 2007/09 development phase of the qualification in particular the turbulence which resulted from the shift away from a mostly linear to a modular system combined with a high proportion of controlled assessment and generous marking tolerances Exam board experts raised concerns at the time but these were not acted upon by the regulator the then interim Ofqual Further difficulties arose because of pressures from the school accountability system The problems experienced with GCSE English in 2012 highlighted serious weaknesses in the moderation of speaking and listening with consequences for grade awarding The current status of Ofqual as an independent regulator accountable to Parliament is the right one However the Coalition Government is bringing in wholesale changes to GCSEs and A levels to a tight timetable and at the same time

Ofqual must have systems in place The Committee is also concerned that there is a rush towards separate exam systems for England Wales and Northern Ireland without careful reflection on what might be lost or consensus that this is the right thing to do *Preparing Students for College and Careers* Katie Larsen McClarty, Krista D. Mattern, Matthew N.

Gaertner, 2017-08-22 *Preparing Students for College and Careers* addresses measurement and research issues related to college and career readiness Educational reform efforts across the United States have increasingly taken aim at measuring and improving postsecondary readiness These initiatives include developing new content standards redesigning assessments and performance levels legislating new developmental education policy for colleges and universities and highlighting gaps between graduates skills and employers needs In this comprehensive book scholarship from leading experts on each of these topics is collected for assessment professionals and for education researchers interested in this new area of focus Cross disciplinary chapters cover the current state of research best practices leading interventions and a variety of measurement concepts including construct definitions assessments performance levels score interpretations and test uses The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license *Assessing Academic Literacy in a Multilingual Society* Albert Weideman, John Read, Theo du Plessis, 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience *Closing the Vocabulary Gap* Alex Quigley, 2018-04-06 As teachers grapple with the challenge of a new bigger and more challenging school curriculum at every key stage and phase success can feel beyond our reach But what if there were 50 000 small solutions to help us bridge that gap In *Closing the Vocabulary Gap* the author explores the increased demands of an academic curriculum and how closing the vocabulary gap between our word poor and word rich students could prove the vital difference between school failure and success This must read book presents the case for teacher led efforts to develop students vocabulary and provides practical solutions for teachers across the curriculum incorporating easy to use tools resources and classroom activities **Parliamentary Debates (Hansard)**. Great Britain. Parliament. House of Commons, 2014 **Education in Cambodia** Vincent McNamara, Martin Hayden, 2022-05-14 This book is the most comprehensive account yet published about the education system in Cambodia It covers all system levels and draws upon the

knowledge and insights of a wide range of leading Cambodian and foreign scholars The book focuses on how the system has developed and is making progress Significant achievements over the past two decades are evident but many problems remain including the poor quality of teaching research and institutional management Under funding is an ongoing obstacle but so too is a bureaucratic culture of resistance to change a history of weak governance and an anti reform sentiment deriving from a teacher centred and exam driven curriculum Achieving international standards must now be the system s highest priority To this end the system must rid itself of conservatism complacency and manipulation by parochial vested interests
