Occupation Based Interventions:

Occupational Therapy Interventions Catherine Meriano, Donna Latella, 2024-06-01 *Occupational Therapy Interventions Functions and Occupations Second Edition* is a unique and comprehensive text intended to provide the essential information required for occupational therapy practice in the physical approach to the intervention process. This practical and user friendly text offers an entry level approach to bridging the American Occupational Therapy Association's Occupational Therapy Practice Framework Third Edition with everyday practice specifically concerning interventions. Dr. Catherine Meriano and Dr. Donna Latella focus each chapter of the text on an area of occupation evidence based practice, current intervention options as well as a specific hands on approach to grading interventions. Although the focus of the text is the intervention process, *Occupational Therapy Interventions Functions and Occupations Second Edition* also includes a detailed Evaluation Grid which offers a unique approach to choosing occupational therapy evaluations. New in the Second Edition, new evidence based articles have been added to each of the chapters. Some new, rewritten and expanded chapters, updated references throughout. Includes sample exam questions with each chapter. Updated key concepts and incorporated new documents such as AOTA's Occupational Therapy Practice Framework Third Edition, AOTA's Occupational Therapy Code of Ethics, AOTA's Guidelines for Supervision Roles and Responsibilities During the Delivery of Occupational Therapy Services. Included with the text are online supplemental materials for faculty use in the classroom. With the incorporation of new evidence based concepts, updates to reflect the AOTA's newest documents and new hands on approaches to interventions, *Occupational Therapy Interventions Functions and Occupations Second Edition* should be by the side of every occupational therapy student and entry level practitioner.

Documenting Occupation-based Interventions to Promote

Occupational Therapy's Distinct Value Rachel A. Roberts, 2017. The ability to clearly articulate the distinct contribution of occupational therapy across practice settings is essential for promoting the value of the occupational therapy profession. Challenges to documenting occupation based interventions have been identified by practitioners working in medically dominated contexts. Clear articulation of services results from a thorough understanding of the theoretical views, models of practice and frames of reference guiding the occupational therapy profession. Treatment provision that is grounded in occupation based theories, models of practice and frames of reference can facilitate the production of quality documentation. This evidence based project serves to inform entry level occupational therapy educators on the challenges practitioners experience when documenting occupation based interventions. Recognizing and understanding identified challenges can lead to the development of effective teaching strategies that promote student articulation of occupation based interventions while utilizing the profession's distinct language and core concepts of occupation.
