Broke Katherine Porter, 2012-01-11

About 15 million households filed bankruptcy in the last year making bankruptcy as common as college graduation and divorce The recession has pushed more and more families into financial collapse with unemployment declines in retirement wealth and falling house values destabilizing the American middle class Broke explores the consequences of this unprecedented growth in consumer debt and shows how excessive borrowing undermines the prosperity of middle class America While the recession that began in mid 2007 has widened the scope of the financial pain caused by overindebtedness the problem predated that large scale economic meltdown And by all indicators consumer debt will be a defining feature of middle class families for years to come The staples of middle class life going to college buying a house starting a small business carry with them more financial risk than ever before requiring more borrowing and new riskier forms of borrowing
