Metadata Best Practices and Guidelines Jung-ran Park,2014-07-10 Metadata best practices and guidelines function as an essential mechanism for metadata planning application and management and interoperability There has been a rapidly growing body of digital repositories and collections accordingly a wide range of digital projects and initiatives have adopted various metadata standards Because of differences in the formats and knowledge domains of the resources it is inevitable that these digital projects and initiatives may have different needs regarding metadata Therefore when a metadata standard is adopted in various institutions and organizations it may have to be modified to reflect the community needs and characteristics of given resources The flexibility and complex structure of natural language allow for the representation of a concept in various ways Thus common understanding and definitions of terms in a given metadata standard is essential for quality metadata generation management interoperability and resource sharing This opens up a pressing need for a systematic examination of documentation practices an area that up to now has been relatively unexplored This book begins to fill the research gap through an empirical assessment of metadata guidelines and best practices This is a book published as a special issue of the Journal of Library Metadata

Reading Victorian Schoolrooms Elizabeth Gargano,2013-10-31 Reading Victorian Schoolrooms examines the numerous schoolroom scenes in

nineteenth century novels during the fraught era of the Victorian education debates As Gargano argues the fiction of mainstream and children s writers such as Dickens Bront and Carroll reflected widespread Victorian anxieties about the rapid institutionalization of education and the shrinking realm of domestic instruction As schools increasingly mapped out a schema of time schedules standardized grades or forms separate disciplines and hierarchical architectural spaces childhood development also came to be seen as regularized and standardized according to clear developmental categories Yet Dickens Bront and others did not simply critique or satirize the standardization of school experience Instead most portrayed the schoolroom as an unstable site incorporating both institutional and domestic space Drawing on the bildungsroman s traditional celebration of an individualized experiential education numerous novels of school life strove to present the novel itself as a form of domestic education in contrast to the rigors of institutional instruction By positioning the novel as a form of domestic education currently under attack these novelists sought to affirm its value as a form of protest within an increasingly institutionalized society The figure of the child as an emblem of beleaguered innocence thus became central to the Victorian fictive project
