researchers their career progression and the reputation of the department in which they work depends upon it However many manuscripts are rejected or sent back for major re working not because the science they contain is in any way bad but because the same problems keep occurring in the way that the material is presented It is one thing to write a good scientific paper however it is quite another thing to get it published This requires some additional nous In writing this book Don Harris draws upon nearly a quarter of a century of experience as an author and reviewer of research papers and ultimately as a journal editor By his own admission it contains all the things he wished that his mentors had told him 25 years ago but didn t The material in the book is drawn from many years of finding all these things out for himself usually by trial and error but mostly error The text adopts a much lighter touch than is normally found in books of this type after all who really wants to read a book about writing research papers The author describes his own unique approach to writing journal papers which in his own words has proved to be extremely successful All major points are illustrated with examples from his own published works The book is written in the form of a manual for constructing a journal manuscript read a chapter write a section However the material it contains goes beyond just this and also describes how to select a target journal the manuscript submission process what referees are looking for in a good journal paper and how to deal with the referees comments Each chapter concludes with a checklist to ensure all the key elements have been addressed **Research Paper** ,1965

planning themselves are insufficient for this purpose An estimation of the reserves in the Swiss Plateau shows that there is a theoretical capacity for accommodating around 0 5 1 million additional inhabitants there is without having to adjust the formal instruments Around two thirds of all reserves are located in smalland medium sized municipalities with fewer than 10 000 inhabitants which moreover make up 93% of all administrative units of the Swiss Plateau In addition it is estimated that half of the floor area reserves lie on already built up though underused plots In the main settlement area of Switzerland a systematic density eschewal is taking place in small and medium sized municipalities In order to help inward development achieve a breakthrough in the main settlement area in Switzerland informal procedures are needed in these municipal categories that result in a revision of local planning In doing so informal procedures should not negate the specific organisational form of small and medium sized municipalities namely the militia system of governance but should rather adapt to this principle An inward development compass brings together the knowledge existing in the militia system of governance forming the informal prelude to the local planning revision of the third generation in small and medium sized municipalities The inception of the revised spatial planning law and its stipulations on inward development and densification confronts the three large scale areas of Switzerland with different challenges Yet driven by changes in the fields of demographics energy and finances the initial problems will manifest themselves most clearly in the Swiss Plateau If the required transformation process is to succeed a more pronounced orientation of policy and spatial planning towards the initial problems in small and medium sized municipalities is necessary **Online Marketing and its critical success factors** Katie Maingi,2014-01-22 Document from the year 2012 in the subject Communications Public Relations Advertising Marketing Social Media language English abstract Online marketing has become a popular technique that helps organizations to reach global customers Though most organizations are using wide range of online marketing strategies some of them are unable to identify various factors that contribute to success of online marketing To help organizations to identify these critical success factors this research paper has analyzed various critical success factors to create a framework for organizations to successfully execute online marketing campaign This paper also focused on identifying major online technique used by organizations and benefits of centralized and decentralized marketing environments Secondary information has been the data was collected by using a questionnaire which consists of 8 questions and 3 marketing managers of selected US based organizations   A Disciplinary Blueprint for the Assessment of Information Literacy Dorothy Anne Warner,2008-06-30 Have you ever worried that literature on library instruction deals more with methods of assessing student attitude than student learning If so you ll be glad to know someone is doing something about it Eight unique disciplinary modules are presented each identifying a series of information literacy objectives developed in accordance with Bloom s Taxonomy of Cognitive Objectives A substantive curriculum map embedded within each module lists the sequence of courses required for the disciplinary major and the level at which the course is taught sophomore junior

etc notes whether information literacy instruction is currently taught by the library for that particular course and delineates the specific information literacy learning objectives the students must master in order to fulfill the course assignments Collaborative responsibility for teaching the information literacy skills is also outlined with specific recommendations for ways the library can strengthen its support for the specific discipline In addition assessment methodologies are identified including scoring rubrics designed specifically for the disciplinary information literacy objectives An indispensable resource for academic librarians ready to take the leap from episodic reactive response to programmatic sequenced integration into the curriculum   **Intelligent Computing and Optimization** Pandian Vasant,Vladimir Panchenko,Elias Munapo,Gerhard-Wilhelm Weber,J.
