Why a quantitative approach might be used in the decision-making process:

1. Complex problems and the manager cannot develop a good solution without the aid of quantitative analysis.
2. Many important problems (e.g., a great deal of money is involved), and the manager desires a thorough analysis before attempting to make a decision.
3. Other problems and the manager has not previous experience from which to draw.
4. Important problems and the manager wants their aid either by solving via quantitative procedures or making informed decisions.
