Instructions:

The student will interview an individual in late adulthood using the questions below, then the student will relate the information they gained from the interview to theories and concepts in class, lastly they will reflect on their experience.

Interview Questions:

For this interview, use the following required questions:

1. What are some of your favorite memories from early childhood, before you started going to school?
 - Lived in France because her father was a captain in the US army, her mother, a registered nurse went to the commanding officer and told him that they needed an American school because all of the French schools spoke French. He told her if she could find 50 kids in the surrounding area that he would start the school because that was in the 1950s and my grandmother made the 10th kid to enroll in the school.
 - Lived on a rabbit farm because her dad was an engineer, moved to various places.
 - Lived on another farm with bullet holes still in the front of the house from world war II.
 - Would jump off the hayloft, second story of the barn, onto the hay at the bottom.
 - Got to France when she was 4 and left when she was 7.
2. What are some of your memories as you grew up and attended school?
 - She attended 12 different schools, her school buses were jeeps, like in the movie M.A.S.H., like little bitty ambulances because they lived off the community.
 - After France she went to Fort Interwound Missouri.
 - She was sent to ainger sewing class where she learned to sew, and her dad bought her her firstinger sewing machine. This came in handy when her parents were low on money because she would make a lot of her own clothes.
 - She went to Taiwan, she got off a school bus and Chinese jeep truck her and threw her up in the air against a tree when she was 9 years old, which broke her leg in two. She lived in Taiwan, Taiwan and they were 200 miles away from the nearest hospital in Taipei. They had to fly her to the hospital where she was there for a month in "bucko" traction, which is the elevation of the leg.
