Aesopic Conversations Leslie Kurke, 2010-10-25 Examining the figure of Aesop and the traditions surrounding him Aesopic Conversations offers a portrait of what Greek popular culture might have looked like in the ancient world What has survived from the literary record of antiquity is almost entirely the product of an elite of birth wealth and education limiting

our access to a fuller range of voices from the ancient past This book however explores the anonymous Life of Aesop and offers a different set of perspectives Leslie Kurke argues that the traditions surrounding this strange text when read with and against the works of Greek high culture allow us to reconstruct an ongoing conversation of great and little traditions spanning centuries Evidence going back to the fifth century BCE suggests that Aesop participated in the practices of nonphilosophical wisdom *sophia* while challenging it from below and Kurke traces Aesop's double relation to this wisdom tradition She also looks at the hidden influence of Aesop in early Greek mimetic or narrative prose writings focusing particularly on the Socratic dialogues of Plato and the Histories of Herodotus Challenging conventional accounts of the invention of Greek prose and recognizing the problematic sociopolitics of humble prose fable Kurke provides a new approach to the beginnings of prose narrative and what would ultimately become the novel Delving into Aesop his adventures and his crafting of fables *Aesopic Conversations* shows how this low noncanonical figure was unexpectedly central to the construction of ancient Greek literature Some images inside the book are unavailable due to digital copyright restrictions

Embodied Activities in Face-to-face and Mediated Settings Elisabeth Reber, Cornelia Gerhardt, 2018-12-15 This edited book revisits the concept of social activities from an interactional perspective examining how verbal vocal visual spatial and material resources are deployed by participants for meaning making in social encounters The eleven original chapters within this volume analyse activities based on video recordings of naturalistic and naturally occurring social encounters from face to face and mediated settings in Chinese Dutch English French and German Informed primarily by the methodological approaches of Conversation Analysis and Interactional Linguistics the authors study embodiment in space and time in three distinct types of situations objects in space complex participation frameworks and affiliation and alignment Moreover the book includes a theoretical and methodological discussion of how activities are constituted and visibly embodied in interaction It will be of interest to students and scholars in sociology and linguistics in general and face to face and mediated interaction in particular

Studies in the New Testament J. Duncan M. Derrett, 2023-10-16 This the sixth and final volume of Derrett's *Studies in the New Testament* includes a Concordance to the 103 studies of the set It gives further examples of the use of Hebrew scripture *halakha* and *haggada* by Paul the evangelists and putatively by Jesus himself Examples are given of a responsible use of Jewish materials to convey as well as to advertise the gospel The lifestyle which is promoted is widely claimed to be a form of Judaism The studies in this set of volumes permit the suspicion that it cannot be comprised within any established definition of Judaism

Studies in the New Testament J. Duncan M. Derrett, 1977 This volume develops the theme that the gospels especially John and Paul cannot be grasped without intimate and detailed knowledge of Jewish sources amongst which the Bible is neglected

Humorous Structures of English Narratives, 1200-1600 Theresa Hamilton, 2013-10-03 We all have the ability to recognize and create humour But how do we do it Salvatore Attardo and Victor Raskin have attempted to explain the workings of humour with their General Theory of Verbal Humor How well does

their theory explain the way humour works in a particular text and can it provide us with interesting novel interpretations By identifying and interpreting the narrative structures that create humour this study tests the usefulness of Attardo Raskin's humour theory on a specific corpus of fabliaux parodies and tragedies Hamilton proposes a supplementation of the General Theory of Verbal Humor to create a means of undertaking what she calls a humorist reading By posing the questions why is this humorous how is it humorous or why is it not humorous and providing the theoretical tools to answer them a humorist reading can make a valuable contribution to our understanding of a literary text and its place in society Observing Projects Workbook for Universe Roger Freedman, 2010-01-29 As the title suggests Discovering Number Theory encourages students to figure out many of the important concepts and theorems of number theory for themselves While the content is similar to other one semester undergraduate texts on the subject the organization and presentation of the material revolves around computer activities With the help of interactive computer software students work on research questions before being exposed to the final polished theorems and proofs By actively participating in the development of course topics they develop a solid understanding of the material and gain valuable insights into the realities of mathematical research **De Gruyter Handbook of Humor Studies** Thomas E. Ford, Władysław Chłopicki, Giseline Kuipers, 2024-07-22 The De Gruyter Handbook of Humor Studies consolidates the cumulative contributions in theory and research on humor from 57 international scholars representing 21 different countries in the widest possible diversity of disciplines It organizes research in a unique conceptual framework addressing two broad themes the Essence of Humor and the Functions of Humor Furthermore scholars of humor have recognized that humor is not only a universal human experience it is also inherently social shared among people and woven into the fabric of nearly every type of interpersonal relationship Scholars across all academic disciplines have addressed questions about the essence and functions of humor at different levels of analysis relating to how narrowly or broadly they conceptualize the social context of humor Accordingly the editors have organized each broad thematic section into four subsections defined by level of analysis The book first addresses questions about individual psychological processes and text properties then moves to questions involving broader conceptualizations of the social context addressing humor and social relations and humor and culture By providing a comprehensive review of foundational work as well as new research and theoretical advancements across academic disciplines the De Gruyter Handbook of Humor Studies will serve as the foremost authoritative research handbook for experienced humor scholars as well as an essential starting point for newcomers to the field such as graduate students seeking to conduct their own research on humor Further by highlighting the interdisciplinary interest of new and emerging areas of research the book identifies and defines directions for future research for scholars from every discipline that contributes to our understanding of humor *Catalog of Captioned Films/videos for the Deaf*, 1991
