allow them to be easily compared The book starts with an analysis of the basic assumptions underlying the current consumer protection models and examines whether and how consumer models adapt to the new market conditions The second part addresses the information obligations themselves first highlighting the differences in the reported countries before narrowing the analysis down to countries with a general pre contractual information duty particularly the transparency requirements that often come with such a duty The next part examines recent developments in the law on food labelling commercial practices and unfair contract terms in order to identify whether similar traits can be found in European and non European jurisdictions The fourth part of the book focuses on specific information obligations in the financial services and e commerce sectors discussing the fact that legislators are experimenting with different forms of summary disclosures in these sectors The final part provides a critical appraisal of the recent developments in consumer information obligations addressing the question of whether the multiple criticisms from behavioural sciences necessitate abandonment or refinement of current consumer information models in favour of new more adequate forms of consumer protection and providing suggestions

Contract Law and the Legislature TT Arvind, Jenny Steele, 2020-08-06 This volume revisits some of the key debates about the nature and shape of contract law in light of the impact that statutes have had on its development With contributions from leading contract law scholars it fills a significant gap in existing theoretical and doctrinal analyses of contract law which rely primarily on cases to put forward accounts of the general principles and structure of contract law Statutory rules are typically seen as being specific instances of legal regulation that carve out exceptions to these general principles for specific reasons of policy This treatment of these rules has resulted in an incomplete understanding of the nature of contract law and the principles that underpin it By drawing specifically on contract statutes the volume produces a more complete picture of modern contract law A companion to the ground breaking *Tort Law and the Legislature* Common Law Statute and the Dynamics of Legal Change Hart Publishing 2012 this collection will have a significant impact on the study of contract law
