Fibre2Fashion Magazine takes the reader beyond the mundane headlines and analyses issues in depth Special Tax Zones and EU Law Claudio Cipollini,2019-12-18 Economic recovery from the global financial crisis of 2007 2008 has been sketchy with some areas within the European Union EU still trapped in seemingly irremediable industrial stagnation and job loss EU institutions are called upon to provide concrete amelioration for these situations through the design and implementation of effective tax policies in accordance with the fundamental principles of EU law In this original innovative book the author presents a new and expanded view of how special tax zones STZs areas of land where territorial advantages are granted on direct and or indirect taxation can deliver growth and mitigate economic and social emergency Recognizing that although a number of STZs within the EU have been established there is still no systematic framework for them in the EU legal system the author works out a comprehensive theory for STZs in the field of European tax law dealing incisively with the interface of STZs with such essential legal and tax aspects as the following customs union provisions benefits on direct and indirect taxation State aid rules free movement of persons harmful tax competition and role of EU social cohesion policies and their implementation Furthermore the author develops a new model of STZs for the most disadvantaged areas of the EU the so

called Social Cohesion Zone to respond decisively to issues of compatibility with such critical variables of EU law as those dealing with the outer limits set by State aid rules and fundamental freedoms clearly demonstrating the model's practical viability. Detailed reviews of Member States' practice in existing STZs and their tax regimes are thoroughly described so different variables can be compared. As a comprehensive description of the state of knowledge about STZs including the relevant background and their current place in EU law, this book has no precedents and no peers. It allows practitioners, policymakers and academics in tax law to fully understand the relationship between EU law, national legislation and STZs, focusing on the possibility of reconciling the tax sovereignty of Member States with a supporting and coordinating role of the EU institutions. It will be warmly welcomed by the tax law community.
