Self-Determination and Secession in International Law Christian Walter, Antje von Ungern-Sternberg, Kavus Abushov, 2014-06-05 Peoples and minorities in many parts of the world assert a right to self determination autonomy and even secession from a state which naturally conflicts with that state s sovereignty and territorial integrity The right of a people to self determination and secession has existed as a concept within international law since the American Declaration of Independence in 1776 but the exact definition of these concepts and the conditions required for their application remain unclear The Advisory Opinion of the International Court of Justice concerning the Declaration of Independency of Kosovo 2010 which held that the Kosovo declaration of independence was not in violation of international law has only led to further questions This book takes four conflicts in the post Soviet Commonwealth of Independent States CIS as a starting point for examining the current state of the law of self determination and secession Four entities Transnistria Moldova South Ossetia Abkhazia both Georgia and Nagorno Karabakh Azerbaijan claim to be entitled not only to self determination but also to secession from their mother state For this entitlement they rely on historic affiliations and on charges of discrimination and massive human rights violations committed by their mother state This book sets out its analysis of these critical issue in three parts providing a detailed understanding of the principles of international law on which they rely The first part sets out the contours and meaning of self determination and secession including an overall assessment of secession within the Commonwealth of Independent States The second section provides case studies investigating the events in Transnistria South Ossetia Abkhazia and Nagorno Karabach in greater detail The third and final section extends the scope

of the examination providing a comparative analysis of similar conflicts involving questions of self determination and secession in Kosovo Western Sahara and Eritrea **This Sporting Life** Robert Colls,2020-08-28 Why did killing a fox mean liberty What did parish revels have to do with the Peterloo Massacre What did animal cruelty have to do with the English constitution What did the Factory Acts mean for modern football In *This Sporting Life* Robert Colls explains sport as one of England s great civil cultures The lived experiences of people from all walks of life are reclaimed to tell England s history through its great sporting cultures from the horseback pursuits of the wealthy and politically connected to the street games in working class neighbourhoods which needed nothing but a ball It observes people at play describes how they felt and thought carries the reader along to a match or a hunt or a fight draws out the sounds and smells of humans and animals showing that sport has been as important in defining British culture as gender politics education class and religion
