I love to use it with my undergraduate students to help them understand the complexities of policing in the modern era. Janne E. Gaub, East Carolina University. Completely revised to cover recent events and research, the Third Edition of *The New World of Police Accountability* provides an original and comprehensive analysis of some of the most important developments in police accountability and reform strategies. With a keen and incisive perspective, esteemed authors and policing researchers Samuel Walker and Carol Archbold address the most recent developments and provide an analysis of what works, what reforms are promising, and what has proven unsuccessful. The book's analysis draws on current research as well as the President's Task Force on 21st Century Policing and the reforms embodied in Justice Department consent decrees. New to the Third Edition: The national crisis over police legitimacy and use of force is put into context through extensive discussions of recent police shootings and the response to this national crisis, providing readers a valuable perspective on the positive steps that have been taken and the limits of those steps. Coverage of the issues related to police officer uses of force is now the prevailing topic in Chapter 3 and includes detailed discussion of the topic, including de-escalation, tactical decision making, and the important changes in training related to these issues. An updated examination of the impact of technology on policing, including citizens' use of recording devices, body-worn cameras, open data provided by police agencies, and use of social media, explores how technology contributes to police accountability in the United States. A complete, up-to-date discussion of citizen oversight of the police provides details on the work of selected oversight agencies, including the positive developments and their limitations, enabling readers to have an informed discussion of the subject. Detailed coverage of routine police activities that often generate public controversy now includes such topics as responding to mental health calls, domestic violence calls, and police stop and frisk practices. Issues related to policing and race relations are addressed head-on through a careful examination of the data, as well as the impact of recent reforms that have attempted to achieve professional, bias-free policing.

Counter-Terrorism Margaret L. Satterthwaite, Jayne Huckerby, 2013-02-15 In the name of fighting terrorism countries have been invaded wars have been waged people have been detained rendered and tortured and campaigns for hearts and minds have been unleashed Human rights analyses of the counter terrorism measures implemented in the aftermath of 11 September 2001 have assumed that men suffer the most both numerically and in terms of the nature of rights violations endured This assumption has obscured the ways that women men and sexual minorities experience counter terrorism By integrating gender into a human rights analysis of counter terrorism and human rights into a gendered analysis of counter terrorism this volume aims to reverse this trend Through this variegated human rights lens the authors in this volume identify the spectrum and nature of rights violations arising in the context of gendered counter terrorism and national security practices Introduced with a foreword by Martin Scheinin former UN Special Rapporteur on Human Rights and Counter Terrorism the volume examines a wide range of gendered impacts of counter terrorism measures that have not been theorized in the leading texts on terrorism counter terrorism national security and human rights Gender National Security and Counter Terrorism will be of particular interest to scholars and students in the disciplines of Law Security Studies and Gender Studies *Recovering Police Legitimacy* Rafe McGregor, 2024-07-11 Transatlantic policing is experiencing an unprecedented crisis of legitimacy epitomised by public responses to the murders of George Floyd and Sarah Everard during the COVID 19 pandemic Legitimacy is lost when the police either fail to protect the public or rely on coercion rather than consent to achieve that protection Recovering Police Legitimacy challenges conventional criminological political and public solutions to the problem by approaching it from the bottom up beginning with policing as a practice constituted by a unique set of excellences skills and characteristics The author draws on his experience as a police officer and on the serial fictions of James Ellroy David Peace and Nic Pizzolatto to characterise the practice in terms of heroic struggle edgework absolute sacrifice and worldmaking These characteristics provide an analytic tool for revolutionising our understanding of the relations among policing as a situated practice public protection and police legitimacy and for identifying the different levels at which legitimacy is undermined His conclusion is that recovery is possible but will be slow in pace and incomplete in scope Written accessibly for students police officers policymakers scholars and anyone with an interest in police legitimacy this is a groundbreaking study of a pressing social problem **The New Normal** Amitai Etzioni, 2014-11-05 Amitai Etzioni argues that societies must find a way to balance individual rights and the common good This point of balance may change as new technologies develop the natural and international environments change and new social forces arise Some believe the United States may be unduly shortchanging individual rights that need to be better protected Specifically should the press be granted more protection Or should its ability to publish state secrets be limited Should surveillance of Americans and others be curtailed Should American terrorists be treated differently from others How one answers these questions Etzioni shows invites a larger fundamental question Where is the proper point of balance between rights and security Etzioni implements

the social philosophy liberal communitarianism Its key assumptions are that neither individual rights nor the common good should be privileged that both are core values and that a balance is necessary between them Etzioni argues that we need to find a new balance between our desire for more goods services and affluence particularly because economic growth may continue to be slow and jobs anemic The key question is what makes a good life especially for those whose basic needs are sated
