

Action Research for Professional Development

What is action research?

Action research is a term which refers to a practical way of looking at your own work to check that it is as you would like it to be. Because action research is done by you, the practitioner, it is often referred to as practitioner based research; and because it involves you thinking about and reflecting on your work, it can also be called a form of self-reflective practice.

The idea of self reflection is central. In traditional forms of research – empirical research – researchers do research on other people. In action research, researchers do research on themselves. Empirical researchers enquire into other people's lives. Action researchers enquire into their own. Action research is an enquiry conducted by the self into the self. You, a practitioner, think about your own life and work, and this involves you asking yourself why you do the things that you do, and why you are the way that you are. When you produce your research report, it shows how you have carried out a systematic investigation into your own behaviour, and the reasons for that behaviour. The report shows the process you have gone through in order to achieve a better understanding of yourself, so that you can continue developing yourself and your work.

Action research is open ended. It does not begin with a fixed hypothesis. It begins with an idea that you develop. The research process is the developmental process of following through the idea, seeing how it goes, and continually checking whether it is in line with what you wish to happen. Seen in this way, action research is a form of self evaluation. It is used widely in professional contexts such as appraisal, mentoring and self assessment.

M. Costello,2011-03-24 SDGs in Africa and the Middle East Region Ismaila Rimi Abubakar,Izael da

Silva, Rudi Pretorius, Khaled Tarabieh, 2024-09-01 Africa is one of the most vulnerable regions and one where the implementation of the SDGs is particularly urgent. Underinvestments in natural conservation are increasing the vulnerability of people across many African countries whose well-being is endangered by deteriorating socio-economic and environmental conditions. This volume provides a contribution towards showcasing how natural resources may be more efficiently used and investments may be mobilised to augment the limited public sector funds available to achieve the SDGs. This book is part of the 100 papers to accelerate the implementation of the UN Sustainable Development Goals initiative. The Action Research Guidebook Richard Sagor, 2005 This book is organized around Richard Sagor's four-stage process developed from his many years of experience training hundreds of educators. The four stages are clarifying visions, targets, articulating theory, implementing action, and collecting data, reflecting on data, and planning informed action. The book includes numerous tables, charts, handouts, forms, and worksheets to demystify and simplify the action research process. Short examples drawn from the author's experience working on one-on-one with teachers on their action research projects are also included, from raising reading proficiency to increasing the problem-solving capacity of faculty members. The author shows how teacher teams can work collaboratively to identify and research problems related to the school's goals. Appropriate for use by individual teachers and teacher teams as well as by pre-service teachers in teacher education courses. Headteachers, counsellors, and other educators will also find the action research process useful for school improvement. **(Free Sample) GoTo Guide for NTA UGC NET/ SET/ JRF Paper 1 Teaching & Research Aptitude (Compulsory) with Chapter-wise 2025 - 2016 Previous Year Questions 4th Edition | NEP 2020** Toshiba Shukla, 2025-09-18 The thoroughly revised and updated 3rd Edition of the Book GOTO UGC NET JRF SET Paper 1 Compulsory Guide is now further enriched with latest content inputs in various sections to meet up the exam requirements.
