standards help in reducing medication errors and in providing safe patient care **Standardizing Medication Labels**

Institute of Medicine, Board on Population Health and Public Health Practice, Roundtable on Health Literacy, 2008-05-15

Medications are an important component of health care but each year their misuse results in over a million adverse drug events that lead to office and emergency room visits as well as hospitalizations and in some cases death. As a patient's most tangible source of information about what drug has been prescribed and how that drug is to be taken, the label on a container of prescription medication is a crucial line of defense against such medication safety problems. Yet almost half of all patients misunderstand label instructions about how to take their medicines. **Standardizing Medication Labels: Confusing Patients Less** is the summary of a workshop held in Washington, D.C. on October 12, 2007 that was organized to examine what is known about how medication container labeling affects patient safety and to discuss approaches to addressing identified problems.

Acampora, 2008-05-19

The first book of its kind **Marketing Chiropractic to Medical Practices** targets chiropractors and leads them through a comprehensive sales model to demonstrate how they can educate the medical profession on how to utilize chiropractic practice for their patients. By implementing a gradual approach from the first office contact to presenting an effective and educational sales call, this text informs the chiropractor how to confidently access their greatest untapped new patient source. **Marketing Chiropractic to Medical Practices** offers a step by step approach to secure medical referrals and develop ongoing professional relationships between the chiropractic and medical worlds. Features: How to provide a pro chiropractic message based on evidence based research. How to access physicians. Uncover patient needs and physician objections for chiropractic care. Learn the most common physician objections and how to overcome them. How to select research that addresses the needs and objections of a physician. How to present research to support a MD/DC conversation. **A Career Companion to Becoming a GP** Patrick Hutt, Sophie Park, 2018-08-08. How many general practitioners ended up in their roles thanks to a faint breeze nudging them in a given direction? How many successes resulted from failure? Some of the most successful practices were built up from nothing and some of the happiest doctors spent time not being doctors. Despite the element that fate plays in career paths, it is prudent to make plans. A career in general practice offers many options for further professional development. While some GPs prefer to concentrate primarily on their practice, others find additional fulfillment in teaching, research, or international collaboration. Whichever path you choose, general practice promises a rewarding and exciting experience. This inspiring new book emphasises there is no single career path in general practice. Without being prescriptive, its practical approach helps you make life-changing decisions, prompts self-analysis, and equips you with the tools to remain flexible, positive, and reflective about your career. So, have you got what it takes to practise the medicine plus which is today's general practice? This book, written and edited by colleagues many of whom have far more street cred than I, will help you decide. If you have, I wish you luck, fulfilment, and the gratification that comes from being a catalyst for good in the lives of your fellow human beings. If you have a role teaching and mentoring the next generation of GPs, you will find this book a persuasive ally. But if you decide that hospital medicine is your preferred option, well, that's fine. There would be no shame if you find the ladder to general practice too steep in settling for becoming a brain surgeon. Roger Neighbour in the Foreword. Lively, extremely informative, and engaging. Professor Roger Jones, Editor, British Journal of General Practice. **Modern Dental Assisting - E-Book** Doni L. Bird, Debbie S. Robinson, 2020-03-13.
