Claim:
There are different aquatic systems with diverse organisms.

Evidence	Reasoning/Justification
Aquatic ecosystems have abiotic - temp, light, salinity, depth	Different organisms can tolerate different factors
Some organisms prefer fresh water vs. saltwater. Bull sharks + manatees tolerate both	Bull sharks and manatees are very different, but tolerate same conditions
Depth reduces light and increases pressure. Organisms deal with this differently.	Many types of adaptations exist to survive in these conditions
The geography of an aquatic environment can determine the life forms present.	Continental shelf gets lots of light, so there's many living things. Not so in the abyss.
Photosynthesis takes place in the neritic zone.	It is the most productive area of the ocean. Plankton are base of food chain.
Metabolism is affected by temp. Many species are cold-blooded.	Organisms can migrate or must have adaptations to survive.

Christ,Philipp R. Rössner,2020-02-27 History and Economic Life offers students a wide ranging introduction to both quantitative and qualitative approaches to interpreting economic history sources from the Middle Ages to the Twentieth Century Having identified an ever widening gap between the use of qualitative sources by cultural historians and quantitative sources by economic historians the book aims to bridge the divide by making economic history sources more accessible to students and the wider public and highlighting the need for a complementary rather than exclusive approach Divided into two parts the book begins by equipping students with a toolbox to approach economic history sources considering the range of sources that might be of use and introducing different ways of approaching them The second part consists of case studies that examine how economic historians use such sources helping readers to gain a sense of context and understanding of how these sources can be used The book thereby sheds light on important debates both within and beyond the field and highlights the benefits gained when combining qualitative and quantitative approaches to source analysis Introducing sources often avoided in culturally minded history or statistically minded economic history courses respectively and advocating a combined quantitative and qualitative approach it is an essential resource for students undertaking source analysis within the field
