Illusions of Location Theory: Consequences for Blue Economy in Africa Francis Onditi, Douglas Yates, 2021-01-05 Illusions of Location Theory Consequences for Blue Economy in Africa questions the relevance of location theory in explaining the coastal hinterland continuum and the implications for the utilization of blue economy ecosystem in such a contested space in Africa It pays more attention to territorial contestations maritime disputes vulnerabilities of landlocked states and expansionist policies as displayed through spatial organizational regimes These areas of investigation have previously been largely studied from the narrow perspective of location unduly focusing on comparative advantages of distance while neglecting the influence of forces such as technology ideology and the power of mental mapping in spatial decision making This volume puts forward the argument that the harmonious relationship between states and efficient exploitation of the blue economy ecosystem in ways that promote peace between states lies not only in the structural transformation of markets but also in bridging the spatial and social divide between the coastal and hinterland societies Thus this work proffers possibilities for a holistic regime for managing Africa's coastal hinterland continuum through innovative strategies such as SMART blue economies and the infusion of the geopolitical dimension into the management of maritime and territorial diplomacy The combination of theoretical and empirical analysis buttressed by in depth case studies of what works in the management of blue economy ecosystem and what does not work make this volume ideal for researchers students and practitioners interested in African regional studies African political economy political geography strategic military studies governance of seas and oceans and maritime science diplomacy

multidimensional welfare geography that transcends state institutions and is defined by locally regionally nationally transnationally negotiated and interconnected practices and traditions of caring and providing for others **The Wretched of France** Abdellali Hajjat, 2022-03-01 In 1983 as France struggled with race based crimes police brutality and public unrest youths from V nissieux working class suburbs of Lyon led the March for Equality and Against Racism the first national demonstration of its type in France As Abdellali Hajjat reveals the historic March for Equality and Against Racism symbolized for many the experience of the children of postcolonial immigrants Inspired by the May 68 protests these young immigrants stood against racist crimes for equality before the law and the police and for basic rights such as the right to work and housing Hajjat also considers the divisions that arose from the march and offers fresh insight into the paradoxes and intricacies of movements pushing toward sweeping social change Translated into English for the first time *The Wretched of France* contemplates the protest s lasting significance in France as well as its impact within the context of larger and comparable movements for civil rights particularly in the US Administrative Culture 14 (2) Wolfgang Drechsler,

Acting Politics Alfredo Joignant, 2018-11-06 Following Bourdieu this book seeks to think about politics without thinking politically advancing the view that politics as conventionally understood does not take place in a social vacuum but in the context of a certain topography of society that cannot be reduced to formal spaces such as a parliament Engaging with Bourdieu s theory of fields and focusing specifically on the notion of the political field the author analyses from a sociological perspective the functioning of the political field seeing it not simply as a formal space but as encompassing a sphere that is increasingly autonomous from others and driven by reasons and motives beyond those conventionally recognised as political Illustrated with cases from the real political life of different countries *Acting Politics* examines the nature of the practices of the agents who inhabit the political field building a picture of a type of competitive political activity that is fundamentally social and symbolic A sociological reading of the agents struggles and forms of the contemporary political field this book thinks with and against Bourdieu in a broad dialogue with different sociological currents and debates in other disciplines As such it will appeal to scholars of politics and sociology with interests in social and political theory and political sociology

Symbolic Power, Politics, and Intellectuals David L. Swartz, 2022-12-22 Power is the central organizing principle of all social life from culture and education to stratification and taste And there is no more prominent name in the analysis of power than that of noted sociologist Pierre Bourdieu Throughout his career Bourdieu challenged the commonly held view that symbolic power the power to dominate is solely symbolic He emphasized that symbolic power helps create and maintain social hierarchies which form the very bedrock of political life By the time of his death in 2002 Bourdieu had become a leading public intellectual and his argument about the more subtle and influential ways that cultural resources and symbolic categories prevail in power arrangements and practices had gained broad recognition In *Symbolic Power Politics and Intellectuals* David L Swartz delves deeply into Bourdieu s work to show how central but often overlooked power and politics

are to an understanding of sociology Arguing that power and politics stand at the core of Bourdieu's sociology Swartz illuminates Bourdieu's political project for the social sciences as well as Bourdieu's own political activism explaining how sociology is not just science but also a crucial form of political engagement
