

**QUESTION 1: MULTIPLE-CHOICE QUESTIONS**

Various options are provided as possible answers to the following questions. Each question has only **ONE** correct answer. Write only the letter (A–D) next to the question number (1.1–1.10) in the **ANSWER BOOK**.

- 1.1 Consider the following vector diagram:

The vector which represents the resultant of the other two, is ...

- A AB.  
B AC.  
C CB.  
D BA. (2)
- 1.2 Two forces of magnitudes 11 N and 5 N respectively, act simultaneously on an object. Which **ONE** of the following **CANNOT** be the resultant of the two forces?  
A 5 N  
B 7 N  
C 9 N  
D 16 N (2)
- 1.3 A ball is dropped onto a concrete floor and bounces off the floor to the same height from which it was dropped. Which **ONE** of the following laws best explains why the ball experiences an upward force?  
A Newton's first law of motion  
B Newton's second law of motion  
C Newton's third law of motion  
D Newton's law of universal gravitation (2)

**Design for the Changing Educational Landscape** Andrew Harrison, Les Hutton, 2013-10-15 The whole landscape of space use is undergoing a radical transformation In the workplace a period of unprecedented change has created a mix of responses with one overriding outcome observable worldwide the rise of distributed space In the learning environment the social political economic and technological changes responsible for this shift have been further compounded by constantly developing theories of learning and teaching and a wide acceptance of the importance of learning as the core of the community resulting in the blending of all aspects of learning into one seamless experience This book attempts to look at all the forces driving the provision and pedagogic performance of the many spaces real and virtual that now accommodate the experience of learning and provide pointers towards the creation and design of learning centred communities Part 1 looks at the entire learning universe as it now stands tracks the way in which its constituent parts came to occupy their role assesses how they have responded to a complex of drivers and gauges their success in dealing with renewed pressures to perform It shows that what is required is innovation within the spaces and integration between them Part 2 finds many examples of innovation in evidence across the world in schools the higher and further education campus and in business and cultural spaces but an almost total absence of integration Part 3 offers a model that redefines the learning landscape in terms of learning outcomes mapping spatial requirements and activities into a detailed mechanism that will achieve the best outcome at the most appropriate scale By encouraging stakeholders to creating an events based rather than space based identity the book hopes to point the way to a fully integrated learning landscape a learning community      The Physical City Neil L. **Florence After the Medici** Corey Tazzara, Paula Findlen, Jacob Soll, 2019-10-08 Although there is a rich historiography on Enlightenment Tuscany in Italian as well as French and German the principle Anglophone works are Eric Cochrane's Tradition and Enlightenment in the Tuscan Academies 1961 and his Enlightenment Florence in the Forgotten Centuries 1973 It is high time to revisit the Tuscan Enlightenment This volume brings together an international group of scholars with the goal of putting to rest the idea that Florence ceased to be interesting after the Renaissance Indeed it is partly the explicit dialogue between Renaissance and Enlightenment that makes eighteenth century Tuscany so interesting This enlightened age looked to the past It began the Herculean project of collecting editing and publishing many of the manuscripts that today form the bedrock of any serious study of Dante Petrarch Boccaccio Machiavelli Vasari Galileo and other Tuscan writers This was an age of public libraries projects of cultural restoration and the emergence of the Uffizi as a public art gallery complemented by a science museum in Peter Leopold's reign whose relics can still be visited in the Museo Galileo and La Specola

Issues in Aging Mark Novak, 2018-02-02 Issues in Aging combines social psychological biological and philosophical perspectives to present a multifaceted picture of aging Novak illustrates both the problems and the opportunities that accompany older age This text helps students understand the tremendous variability in aging and introduces them to careers working with older adults This new edition reflects the continued changes in the way we age The fourth edition has been updated to include emerging issues in aging These include the prevalence of HIV AIDs in later life current research on mental potential in old age the creation of age friendly cities and new options for end of life care Each chapter begins with a set of learning objectives to guide students in their reading and concludes with a list of main points questions for discussion or study suggested readings and relevant web sites to consult Each chapter also includes up to date charts and graphs as well as key terms to help students understand the issues presented Break out boxes reveal the human side of aging through the stories of individuals in real life and in the media

*Psychology of Sustainability* Robert G. Jones, 2014-07-11 Psychology of Sustainability An Applied Perspective examines the many psychological factors that lead to human behavioral effects on the environment Each chapter will apply elements from a basic research area into the context of criteria specific to sustainability Increased interest has led many universities to offer courses on Psychology of Sustainability This book is the perfect text to provide an introduction to the subject Throughout the book readers will find new ways of framing questions related to human adaptability and evolutionary psychology Psychology of Sustainability is ideal for

students or professionals who are looking to contribute to the conversation      Strategic Management in Public Services Organizations Ewan Ferlie, Edoardo Ongaro, 2015-02-20 Strategic Management in Public Services Organizations sets out to connect the two traditionally disparate academic literatures of public management and strategic management The authors argue that some models of strategic management are now of enhanced relevance for contemporary public services organizations especially when considering successive New Public Management reforms This observation has important consequences for the requisite work practices skills and knowledge bases of current public managers as they are increasingly being asked to act as strategic as well as operational managers Strategic Management in Public Services Organizations takes a strongly comparative and international perspective in addressing the fundamental issue of strategic management within diverse public administrative traditions The impact of strategic management on the performance of public agencies is examined and it is argued that the appropriate use of strategic management models depends on the politico administrative and cultural contexts of the public services organization in question concluding that there is no single best way to strategically lead public organisations This is an advanced textbook aimed at the postgraduate level particularly students on MPAs and MBAs with a public sector option or MScs in Public Policy and Public Management

**Complementarity Beyond Physics (1928-1962)** D. Favrholt, 2013-10-22 This volume is divided into five parts The title of the volume refers primarily to part I which is by far the largest and comprises papers discussing the fundamental questions of biology and related psychological and philosophical problems Following the reproduction of papers brought to publication by Bohr there is a separate Appendix to Part I including some of Bohr's most interesting and substantive unpublished contributions in this area The papers in Part I span the last thirty years of Bohr's life and display his great interest in biological problems and his unremitting efforts to show that biology cannot be reduced to physics and chemistry Part II contains articles of a more general cultural interest Some of these show that Bohr regarded the complementary perspective to be of value also outside the scientific sphere Part III contains the articles Bohr wrote about the great Danish philosopher Harald Hffding These short papers are presented in a section on their own because of the continuing discussion in the history of science about Hffding's possible influence on Bohr's work in physics and his whole scientific approach Part IV comprises articles illuminating the history of 20th century physics Bohr had great veneration for his predecessors and teachers and he prepared these articles with great care Part V contains correspondence relating to the material in Parts I through IV As in previous volumes an inventory of relevant unpublished manuscripts held at the Niels Bohr Archive constitutes an appendix to the whole volume      Applications of Quantum Mechanical Techniques to Areas Outside of Quantum Mechanics. 2nd Edition Emmanuel Haven, Andrei Khrennikov, 2019-11-14 This book deals with applications of quantum mechanical techniques to areas outside of quantum mechanics so called quantum like modeling Research in this area has grown over the last 15 years But even already more than 50 years ago the interaction between Physics Nobelist

Pauli and the psychologist Carl Jung in the 1950s on seeking to find analogous uses of the complementarity principle from quantum mechanics in psychology needs noting. This book does NOT want to advance that society is quantum mechanical. The macroscopic world is manifestly not quantum mechanical. But this rules not out that one can use concepts and the mathematical apparatus from quantum physics in a macroscopic environment. A mainstay ingredient of quantum mechanics is quantum probability and this tool has been proven to be useful in the mathematical modelling of decision making. In the most basic experiment of quantum physics the double slit experiment it is known from the works of A. Khrennikov that the law of total probability is violated. It is now well documented that several decision making paradoxes in psychology and economics such as the Ellsberg paradox do exhibit this violation of the law of total probability. When data is collected with experiments which test non rational decision making behaviour one can observe that such data often exhibits a complex non commutative structure which may be even more complex than if one considers the structure allied to the basic two slit experiment. The community exploring quantum like models has tried to address how quantum probability can help in better explaining those paradoxes. Research has now been published in very high standing journals on resolving some of the paradoxes with the mathematics of quantum physics. The aim of this book is to collect the contributions of world's leading experts in quantum like modeling in decision making psychology cognition economics and finance.

## The Enigmatic Realm of **Physical Science Paper June Exemplar 2013**: Unleashing the Language is Inner Magic

In a fast-paced digital era where connections and knowledge intertwine, the enigmatic realm of language reveals its inherent magic. Its capacity to stir emotions, ignite contemplation, and catalyze profound transformations is nothing short of extraordinary. Within the captivating pages of **Physical Science Paper June Exemplar 2013** a literary masterpiece penned by way of a renowned author, readers set about a transformative journey, unlocking the secrets and untapped potential embedded within each word. In this evaluation, we shall explore the book's core themes, assess its distinct writing style, and delve into its lasting affect the hearts and minds of those that partake in its reading experience.
