Idaho's Salmon River Chronicles Gary Lane, 2018-03-02 Does Idaho s Salmon River attract unusual characters to the canyon or does it create them Providing evidence for both are the experiences recounted by modern day river man Gary Lane who shares tales of adventure mishaps and humor from his more than 40 years of guiding people from a wide variety of backgrounds on trips down the Salmon River After working as a guide for five years with Martin Litton s famed Grand Canyon Dories Gary branched off to form his own company Eclipse Expeditions which evolved into the present Wapiti River Guides based in Riggins Idaho With his unique style Gary specializes in leading small groups on wild country river trips in Idaho and Oregon as well guiding hunters and fishermen While trips usually run smoothly he has found that the most memorable ones often include some bumps in the road caused by unforeseen circumstances It is these situations that evoke many of the fascinating stories he tells here Gary s pre guiding academic training and work as a wildlife biologist and naturalist give him a unique perspective from which to also offer insights blending scientific truth with native earth wisdom His expertise helps guests and readers alike leave behind a high tech world to reconnect with their foundational bonds to nature

[Idaho's Salmon River Chronicles](#)

[Reflection of a River Guide](#) Gary Lane, 2020-05-11 This is Gary s second volume and covers additional outdoor river adventures beyond the whitewater experiences revealed in his first book It describes more of the obstacles challenges and humor that river guides often encounter when escorting fishermen and bird hunters downriver by driftboat and raft These stories include steelhead fishing and chukar hunting with guests and in some cases their dogs Although while some dogs would have been better left at home they did add color to unusual experiences people are willing to pay guides to facilitate be they good bad or the ugly All of these events happened in one of the world s most famous and beautiful Idaho canyons the lower gorge of the Salmon River All of the adventures were able to take place because of yesterday s conservationists who took action to save the area for future generations Unfortunately much of the fish and wildlife that enliven the landscape and river world continue to need better protection for enjoyment by each successive generation From wildlife biologist to river guide keen on observing natural history and lifeways of indigenous wildlife and people Gary spent over thirty years of living

in a tipi and a river centered lifestyle This simplified habitation allowed him ample time to ponder the various philosophic aspects of the foundational relationships between people and nature These hard earned ecocentric values influenced the second part of this book as he addresses many of the complex issues and potential solutions to confronting current management policies and politics of the region Bio politics is the real battleground and information is the best weapon to use for wars waged on mother earth Gary dives deep into the science and controversies behind some of the more iconic fish and wildlife species indigenous to the area From salmon to steelhead wolves to bighorn sheep and other related ecological issues all are evaluated by his trained eye and consortium of situational lifetime encounters The interconnected life fabric is all a part of what ensouls the Salmon River Canyon as a place and provides a vortex of spiritual enrichment to many of the humans who live in or visit it However it is not enough to love a place Most importantly continued fighting for it is the only way to help maintain its integrity and existence into tomorrow s far beyond
