[Disarming the Allies of Imperialism](#) Michael G. Murdock, 2010-03-31

This study provides a striking new explanation of how China's Nationalist Party (GMD) defeated its rivals in the revolution of 1922-1929 and helped bring some degree of unification to a country torn by class, regional, and ideological interests. *Disarming the Allies of Imperialism* argues that inconsistency, more than culture, ideology, or any other factor, gave nationalism its unique edge. Revolutionary leaders manipulated revolutionaries and non-revolutionaries alike to advantage their own positions and seize national power, sometimes seeking to protect foreign lives and property and shield Chinese merchants from agitative disruptions, sometimes

voting to do the opposite Exploiting the symbiotic yet contradictory relationship between state building which sought foreign ties and international recognition and low level agitators committed to confrontational anti imperialist objectives top Guomindang leaders were able to manipulate political circumstances to their own benefit For example party leaders stirred up anti Christian sentiment pitting popular forces against mission schools while simultaneously intervening to rescue these same schools from agitative destruction thus helping missionaries to soften their attitudes toward the revolution and eventually embrace the new order Scholars of modern Chinese history and anyone familiar with the growing literature on nationalism will appreciate this work for its elucidation of a complex historical snarl while undergraduates and scholars outside the China field will find this a useful and accessible study as well

The Human Image of God Hans-Georg Ziebertz,Friedrich Schweitzer,Hermann Häring,Don Browning,2021-10-01 A new wave of religious energy is sweeping through the western nations Although God is disappearing from religious discourse in western culture both as a word and as a concept there is a definite undercurrent of religious ardour which is growing in strength It focuses all the more attention on the issue what or who is God in the modern era This is the question examined through systematic studies practical theology and empirical research that are presented here through anthropologically relevant theology Renowned international authors make it plain in this book the question of God is exciting again This book is published in honour of Johannes A van der Ven on the occasion of his 60th birthday

Marianski,Jamie Ruers,2022-09-29 The films of David Lynch are sometimes said to be unintelligible They confront us with strange dreamscapes populated with bizarre characters obscure symbols and an infuriating lack of narrative consistency Yet despite their opacity they hold us transfixed Lynch who once told an interviewer I love dream logic would surely agree with Sigmund Freud s famous claim that before the problem of the creative artist psychoanalysis must lay down its arms But what else might the two agree on Rather than presuming to fill in what Lynch leaves open by positing some forbidden

psychosexual reality lurking behind his trademark red curtains this book instead maintains a fidelity to the mysteries of his wonderful and strange filmic worlds finding in them productive spaces where thought and imagination can be set to work With contributions from scholars psychoanalysts cinephiles and filmmakers this collection of essays explores potential affinities and disjunctions between Lynch and Freud Encompassing themes such as art identity architecture fantasy dreams hysteria and the unconscious Freud Lynch takes as its point of departure the possibility that the enterprise in which these two distinct investigators are engaged might in some sense be a shared one **The Replacement Crush** Lisa Brown
