Black Cultural Production after Civil Rights Robert J Patterson, 2019-08-30 The post civil rights era of the 1970s offered African Americans an all too familiar paradox Material and symbolic gains contended with setbacks fueled by resentment and reaction African American artists responded with black approaches to expression that made history in their own time and continue to exercise an enormous influence on contemporary culture and politics This collection's fascinating spectrum of topics begins with the literary and cinematic representations of slavery from the 1970s to the present Other authors delve into visual culture from Blaxploitation to the art of Betye Saar to stage works like *A Movie Star Has to Star in Black and White* as well as groundbreaking literary works like *Corregidora* and *Captain Blackman* A pair

of concluding essays concentrate on institutional change by looking at the Seventies surge of black publishing and by analyzing Ntozake Shange's *For Colored Girls in the Context of Current Controversies* surrounding sexual violence. Throughout the writers reveal how Seventies black cultural production anchors important contemporary debates in black feminism and other issues while spurring the black imagination to thrive amidst abject social and political conditions. Williamson, and Lisa Woolfork.

My Desire for History Allan Bérubé, 2011-06-01 This anthology pays tribute to Allan Berube 1946-2007, a self-taught historian and MacArthur Fellow who was a pioneer in the study of lesbian and gay history in the United States. Best known for his Lambda Literary Award-winning book *Coming Out Under Fire: The History of Gay Men and Women in World War II* (1990), Berube also wrote extensively on the history of sexual politics in San Francisco and on the relationship between sexuality, class, and race. John D. Emilio and Estelle Freedman, who were close colleagues and friends of Berube, have selected sixteen of his most important essays, including hard-to-access articles and unpublished writing. The book provides a retrospective on Berube's life and work while it documents the emergence of a grassroots lesbian and gay community history movement in the 1970s and 1980s. Taken together, the essays attest to the power of history to mobilize individuals and communities to create social change.

Alex Haley Doreen Gonzales, 1994 When Alex Haley's novel *Roots* was turned into a TV miniseries, Americans were introduced to Haley's family history traced back to his ancestors in Africa. Readers will be fascinated by the story of this inspirational writer, lecturer, and student of history.

Black Muslim Religion in the Nation of Islam, 1960-1975 Edward E. Curtis IV, 2009-01-05 Elijah Muhammad's Nation of Islam came to America's attention in the 1960s and 1970s as a radical separatist African American social and political group. But the movement was also a religious one. Edward E. Curtis IV offers the first comprehensive examination of the rituals, ethics, theologies, and religious narratives of the Nation of Islam, showing how the movement combined elements of Afro-Eurasian Islamic traditions with African American traditions to create a new form of Islamic faith. Considering everything from bean pies to religious cartoons, clothing styles to prayer rituals, Curtis explains how the practice of Islam in the movement included the disciplining and purifying of the black body, the reorientation of African American historical consciousness toward the Muslim world, an engagement with both mainstream Islamic texts and the prophecies of Elijah Muhammad, and the development of a holistic approach to political, religious, and social liberation. Curtis's analysis pushes beyond essentialist ideas about what it means to be Muslim and offers a view of the importance of local processes in identity formation and the appropriation of Islamic traditions.

Law and Society in the South John W. Wertheimer, 2021-12-14 *Law and Society in the South* reconstructs eight pivotal legal disputes heard in North Carolina courts between the 1830s and the 1970s and examines some of the most controversial issues of southern history, including white supremacy and race relations, the teaching of evolution in public schools, and

Prohibition Finally the book explores the various ways in which law and society interacted in the South during the civil rights era The voices of racial minorities some urging integration others opposing it grew more audible within the legal system during this time Law and Society in the South divulges the true nature of the courts as the unpredictable venues of intense battles between southerners as they endured dramatic changes in their governing values Exploring Norms and Family Laws across the Globe Melissa L. Breger, 2022-03-28 Bringing together some of the world's leading family law scholars as well as bright and emerging minds in the field of global family law this book explores the differences and commonalities in the conceptualization and legal treatment of families throughout different legal traditions Each chapter delves into topics integral to family law jurisprudence and serves as a novel examination into a deep slice of family law Together the four parts and sixteen chapters create a melodious and intriguing examination of groundbreaking and cutting edge areas of law in the realm of the family The four parts primarily focus upon a major family law topic with the authors examining the laws across jurisdictions cross nationally or in some cases intra jurisdictionally It is through this comparative lens that we see how family law concepts are woven into the fabric of overall society around the globe This book is of interest to family law international law sociology and socio legal scholars **Essays on the Economic Role of Government** Warren J. Samuels, 1992-06-18 This collection of articles examines the fundamental non ideological conceptions and relationships constituting the economic role of government especially in market economies The fundamental concepts include the nature of economic policy and the problem of order in economic affairs **From Head Shops to Whole Foods** Joshua C. Davis, 2017-08-08 In the 1960s and 70s a diverse range of storefronts including head shops African American bookstores feminist businesses and organic grocers brought the work of the New Left Black Power feminism environmentalism and other movements into the marketplace Through shared ownership limited growth and democratic workplaces these activist entrepreneurs offered alternatives to conventional profit driven corporate business models By the middle of the 1970s thousands of these enterprises operated across the United States but only a handful survive today Some such as Whole Foods Market have abandoned their quest for collective political change in favor of maximizing profits Vividly portraying the struggles successes and sacrifices of these unlikely entrepreneurs From Head Shops to Whole Foods writes a new history of social movements and capitalism by showing how activists embraced small businesses in a way few historians have considered The book challenges the widespread but mistaken idea that activism and political dissent are inherently antithetical to participation in the marketplace Joshua Clark Davis uncovers the historical roots of contemporary interest in ethical consumption social enterprise buying local and mission driven business while also showing how today's companies have adopted the language but not often the mission of liberation and social change **Race, Color, Identity** Efrain Sicher, 2013-05-01 Advances in genetics are renewing controversies over inherited characteristics and the discourse around science and technological innovations has taken on racial overtones such as attributing inherited physiological traits to certain ethnic groups or using

DNA testing to determine biological links with ethnic ancestry This book contributes to the discussion by opening up previously locked concepts of the relation between the terms color race and Jews and by engaging with globalism multiculturalism hybridity and diaspora The contributors leading scholars in anthropology sociology history literature and cultural studies discuss how it is not merely a question of whether Jews are acknowledged to be interracial but how to address academic and social discourses that continue to place Jews and others in a race color category Ethcaste Douglas V. Davidson, 2001 Ethcaste is a theoretical analysis and interpretation of one of the most complex and controversial groups in U S society the black middle class While this group has received accolades from the liberal journalistic press as well as academia it has also been highly criticized and oftentimes ridiculed by radical black political activists and intellectuals This analysis represents an effort to clarify the larger black community as an oppressed group constrained by the capitalist racial dynamics of the dominant white society In so doing it summarizes and critiques the major theoretical approaches to the study of social class in U S sociology as well as the dominant theories of race and ethnic relations Noting that most of this preceding scholarship has studied the black community from the perspective that blacks constitute a racial thus non cultural group as opposed to an ethnic distinct cultural group the author presents compelling evidence of the vitality of black American culture and argues persuasively that any analysis of the black middle class must locate it within the cultural dynamics of the larger black community The core argument in the text is that the so called racial struggle must be re defined as a cultural struggle where the core values norms and beliefs of the black community have been and continue to be in an intense struggle for dominance with the core values norms and beliefs of the white community In essence the book offers an alternative model for describing and interpreting the historical and contemporary racial dynamics between the black and white communities
