Saudi Arabia and Nuclear Weapons Norman Cigar, 2016-03-10 Nuclear proliferation in the Middle East remains an issue of concern *Saudi Arabia*'s actions will largely rest on Iran's decisions and discussions and preparations within *Saudi Arabia* would suggest that it is ready to react to potential shifts in the region's nuclear powers *Saudi Arabia and Nuclear Weapons* uses an inside out approach that emphasises the Saudis own national interests in relation to the nuclear threat and their understanding of the role of nuclear weapons in defense foreign policy and the concept of deterrence It is the first study with comprehensive use

of the local Arabic language military and civilian media to provide this understanding of official thinking and policy The Saudi case study is contextualised against the prevailing proliferation models to conclude that the Saudi case shares both commonalities and elements of uniqueness with other proliferation cases implying the need for a multi causal approach Its comparative analysis also suggests potential implications applicable more broadly to the issue of nuclear proliferation A comprehensive study of Saudi Arabia s attitude to nuclear weapons this book offers an exploration of nuclear proliferation that would interest students scholars and policymakers working in Middle East studies as well as Military and nuclear proliferation studies

Saudi Arabia International Monetary Fund. Middle East and Central Asia Dept., 2014-09-23 KEY ISSUES Context Saudi Arabia's economy has grown very strongly in recent years benefitting from high oil prices and output strong private sector activity and government spending It has played a systemic and stabilizing role in the global oil market The economy has not been affected by the recent global financial market volatility The Saudi population is young growing and increasingly well educated Outlook and risks The near term economic outlook is positive Oil production is expected to be little changed from 2013 while non oil growth will be underpinned by strong private sector activity and government spending on large projects in transportation infrastructure and housing Inflation is expected to remain subdued The main source of risk is the global oil market Macroeconomic policies Fiscal buffers are strong at present providing macroeconomic policies with scope to respond to shocks The current path of fiscal policy would however lead to a substantial erosion of these buffers over the medium term Fiscal adjustment needs to start to preserve these buffers and increase saving for intergenerational equity purposes Monetary and macro prudential policy settings are appropriate at present Reforms to the macroeconomic policy framework can help strengthen macroeconomic management and create an environment conducive to private investment and job creation Managing demographic pressures A multi pronged labor market reform program is increasing the employment of nationals in the private sector and improving the functioning of the

labor market An ambitious program to boost the supply of housing is also underway Energy consumption is high and price increases are needed to support efforts to increase energy efficiency and develop public transportation networks Economic diversification Creating a more diversified economy is a challenge given Saudi Arabia's vast oil resources The government is making considerable efforts to lay the groundwork for further diversification by upgrading infrastructure strengthening education and skills boosting access to finance for SMEs and improving the business environment However more needs to be done to realign incentives to encourage firms to export and workers to seek jobs in the private sector
