Seventh Day Adventist Second Quarterly 2014:

Seventh-Day Adventism in Africa Gabriel Masfa, 2023-06-16 This book examines the complex history of Adventism in Africa situating it within the context of African traditions and culture From a small movement with origins in the United States the Seventh day Adventist Church has grown worldwide It is one of several Christian denominations present in Africa and yet the history of Seventh day Adventism in the global South has been largely unexplored by scholars The book highlights the discrepancies between western traditions exhibited in the missionary enterprise and African religious systems It also explores the intricate relation between colonialism and African Adventism in line with established studies in African Christianity It will be of interest to scholars of religion and theology particularly church history and mission studies as well as African studies

Seventh-day Adventist Health Reform: A Crucible of Identity Tensions Richard B. Ferret, 2023-07-20 The Seventh day Adventist church formally organized in America in 1863 is today one of the fastest growing Protestant movements in the world and defines itself as a prophetic remnant raised up and commissioned by God to teach and preach a final message of warning to the world before the imminent return of Christ From its beginnings however a sense of failure was built into the success of the fledgling movement In order to preserve the message the imminent return of Christ Adventists had to erect institutions based on continuity and permanence A dilemma emerged medical institutions built to be conducive for separation from the world faced a this worldly reality filled with requirements from various state entities registration approval and so forth Thus Adventist medical institutions confronted constant challenges to their denominational and theological uniqueness The emergence of this dilemma between aspirations of separateness and this worldly reality was especially evident in the battle for Adventism s sectarian identity ethos and future at the turn of the twentieth century between Ellen G White a cofounder of the movement and Dr John H Kellogg an Adventist administrator and surgeon who sought to desectarianize the movement

Special Sexual Operations.Accounting for Resistance to the Colonial “Gift” of Homosexuality in Twenty-First Century Africa Artwell Nhemachena,Munyaradzi

Mawere,2024-03-01 Even as African states are currently legislating against homosexuality in order to protect their societies there are some emergent Eurocentric discourses seeking to legalize bestiality involving sex between humans and nonhuman animals Indeed binaries between humans and nonhumans are being challenged and speciesism is being deconstructed to pave the way for interspecies sex Critically interrogating these dissident and subversive sexualities in novel ways this book also deals with emergent humanoid sex robots which are challenging human marriages and families by replacing human spouses The book is relevant to anthropologists sociologists lawyers legislators politicians theologians historians philosophers and educators Huge commendations are due for the gargantuan work done on this book which speaks to the past present and future of African sexualities These are revolutionary thoughts that change the traditional Western scholarship landscape in the field of sexualities The book inculcates and imparts African people centred strategic architectural futuristic flavor for building Africa s competitive positioning in the discourses on sexualities for the centuries ahead Indeed it is commendable and deserves an award for revitalizing Africanity and Africanism renaissance I am sure this book is going to stimulate broad discussions from Africa and the rest of the world which have sadly been fed with Eurocentric single stories on African sexualities Professor Eginald P Mihanjo Saint Augustine University of Tanzania This is a must read book It grapples with the important question Why the West would want to decolonize only by returning homosexuality to Africans and not by returning African land artefacts skulls and skeletons The book challenges the systemic humanophobic mission orchestrated by neo capitalists in the Euro American world and their allies in Africa Until we hold together the ethical and ontological boundaries of marriage as a divine cultural mandate secured in its sociogenic logicity all the debates about decolonization will not save us from the ultimate crime of promoting ontological disorderliness Charles Prempeh PhD Cantab Research Fellow Centre for Cultural and African Studies Kumasi Ghana and author of Gender Sexuality and Decolonisation in Postcolonial Ghana A Socio Philosophical Engagement
