

Sharing Submarine Sandwiches

The cafeteria made lunches for the fourth graders going on a field trip. They were in four different groups so the number of sandwiches differed. The sandwiches were all the same size.

Group One had 4 students sharing 3 subs

Group Two had 5 students sharing 4 subs

Group Three had 8 students sharing 7 subs

Group Four had 5 students sharing 3 subs

Did each student get a "fair share?"

If not, which group ate the least? Most? How do you know?

Sharing Sub Sandwiches Math
