Shreir's Corrosion, 2009-02-27 This four volume reference work builds upon the success of past editions of Elsevier's Corrosion title by Shreir Jarman and Burstein covering the range of innovations and applications that have emerged in the years since its publication Developed in partnership with experts from the Corrosion and Protection Centre at the University of Manchester Shreir's Corrosion meets the research and productivity needs of engineers consultants and researchers alike Incorporates coverage of all aspects of the corrosion phenomenon from the science behind corrosion of metallic and non metallic materials in liquids and gases to the management of corrosion in specific industries and applications Features cutting edge topics such as medical applications metal matrix composites and corrosion modeling Covers the benefits and limitations of techniques from scanning probes to electrochemical noise and impedance spectroscopy Loft Conversions John Coutts, 2012-12-21 Pressure on space and changes in planning law mean that loft conversions are now at the forefront in the race to improve the performance of Britain's ageing housing stock Since 1990 roof space conversions have increased UK housing capacity by more than 200 million square feet a living area equivalent to a medium sized city without the loss of a single square foot of greenfield land Loft Conversions is the definitive technical guide to the conversion of roof spaces in single family dwellings It brings together a wealth of practical and regulatory guidance in a form that is easy to read and comprehensively illustrated This fully revised and updated second edition is intended primarily for architects builders surveyors and others professionally involved in the process of loft conversion. The insights it provides are also invaluable to

self builders and to householders wishing to achieve a deeper understanding of what a loft conversion involves Building Maintenance Brian J.B. Wood, 2009-09-28 Maintaining a building is expensive it costs many times more to run a building over its lifetime than to build it yet maintenance is often not accorded the priority it warrants A poorly maintained building will be a drain on resources and will impair building use whereas a well maintained building will function smoothly and represent an appreciating asset to its owners Building Maintenance is a core text on the technical aspects of maintenance for undergraduate degree students on built environment courses particularly building surveying and facilities management It addresses the who what where when how and why of maintenance activities and shows that maintenance should be considered seriously at the design stage Extensive case studies illustrate what can go wrong how to put matters right and how to get it right first time next time A professional approach is required to building maintenance By encouraging maintenance managers to stand back and take a strategic view of building maintenance alongside their day to day tasks this book will help practitioners and students to achieve that The Production of Heritage Alan Chandler, Michela Pace, 2019-12-06 In this important book the authors unpack the theoretical and practical issues around the development of heritage sites critically dissecting key conservation benchmarks such as the ICOMOS guidelines BS 7913 and the RIBA Conservation Plan of Work to reveal the mechanics of heritage guidance its advantages and conceptual limitations Underpinned by an active understanding of the conservation philosophy of William Morris the book presents five case studies from the UK and North and South America that speak about different facets of heritage value such as urban identity commodification authenticity materiality and heritage as an intellectual and ethical framework Heritage is never neutral its definition is privileged yet its influence is political Art landscape and archaeology all offer examples of how the operational ideas of adjacent disciplines can influence an integrated idea of heritage conservation and how this is communicated in order to determine significance and share in its custodianship This book provides insights into how to identify and challenge these limitations expanding inclusion by describing tactics for changing how people can relate to and build on the past Clearly written for all levels of readership within the conservation professions and community custodians of heritage buildings and places the book provides strategies and tactics for understanding the heritage significance of materials their fabrication detail and use The narratives that historic fabric contains can help shape the meaningful involvement of local people providing a roadmap for those navigating the double bind of using the past to underpin the future Understanding Housing Defects Duncan Marshall, Derek Worthing, Roger Heath, Nigel Dann, 2013-12-13 Understanding Housing Defects provides a concise coherent and comprehensive introduction to the causes investigation and diagnosis of defects in domestic buildings For this new edition many of the chapters have been substantially updated and new photographs have been added There are four new chapters covering How defects are defined An overview of building and architectural history External joinery and painted finishes Environmental and health related building problems Many of the 21 chapters cover a specific

building element and include a brief introduction setting out construction principles and the evolution of current practice All of the chapters consider the identification cause and diagnosis of common and sometimes not so common defects This book is a must have for all those students and practitioners who require a broad understanding of housing defects Building surveyors general practice surveyors architects estate agents housing officers and anyone involved in the management and maintenance of property as well as its construction will benefit hugely from this highly informative full colour text Written by the authors of The Construction of Houses the book is also the natural companion to this bestselling textbook
