Hoarding New Guinea Rainer F. Buschmann, 2023-07 *Hoarding New Guinea* provides a new cultural history of colonialism that pays close attention to the millions of Indigenous artifacts that serve as witnesses to Europe's colonial past in ethnographic museums Rainer F Buschmann investigates the roughly two hundred thousand artifacts extracted from the colony of German New Guinea from 1870 to 1920 Reversing the typical trajectories that place ethnographic museums at the center of the analysis he concludes that museum interests in material culture alone cannot account for the large quantities of extracted artifacts Buschmann moves beyond the easy definition of artifacts as trophies of colonial defeat or religious conversion instead employing the term hoarding to describe the irrational amassing of Indigenous artifacts by European colonial residents Buschmann also highlights Indigenous material culture as a bargaining chip for its producers to engage with the imposed colonial regime In addition by centering an area of collection rather than an institution he opens new areas of investigation that include non professional ethnographic collectors and a sustained rather than superficial consideration of Indigenous peoples as producers behind the material culture *Hoarding New Guinea* answers the call for a more significant historical focus on colonial ethnographic collections in European museums

In the Eye of All Trade Michael J. Jarvis, 2012-12-01 In

an exploration of the oceanic connections of the Atlantic world Michael J Jarvis recovers a mariner's view of early America as seen through the eyes of Bermuda's seafarers The first social history of eighteenth century Bermuda this book profiles how one especially intensive maritime community capitalized on its position in the eye of all trade Jarvis takes readers aboard small Bermudian sloops and follows white and enslaved sailors as they shuttled cargoes between ports raked salt harvested timber salvaged shipwrecks hunted whales captured prizes and smuggled contraband in an expansive maritime sphere spanning Great Britain's North American and Caribbean colonies In doing so he shows how humble sailors and seafaring slaves operating small family owned vessels were significant but underappreciated agents of Atlantic integration The American Revolution starkly revealed the extent of British America's integration before 1775 as it shattered interregional links that Bermudians had helped to forge Reliant on North America for food and customers Bermudians faced disaster at the conflict's start A bold act of treason enabled islanders to continue trade with their rebellious neighbors and helped them to survive and even prosper in an Atlantic world at war Ultimately however the creation of the United States ended Bermuda's economic independence and doomed the island's maritime economy

Making Men in Ghana Stephan Miescher, 2005 By featuring the life histories of eight senior men *Making Men in Ghana* explores the changing meaning of becoming a man in modern Africa Stephan F Miescher concentrates on the ideals and expectations that formed around men who were prominent in their communities when Ghana became an independent nation Miescher shows how they negotiated complex social and economic transformations and how they dealt with their mounting obligations and responsibilities as leaders in their kinship groups churches and schools Not only were notions about men and masculinity shaped by community standards but they were strongly influenced by imported standards that came from missionaries and other colonial officials As he recounts the life histories of these men Miescher reveals that the passage to manhood and a position of power seniority authority and leadership was not always welcome or easy As an important foil for studies on women and femininity this groundbreaking book not only explores masculinity and ideals of male behavior but offers a fresh perspective on African men in a century of change

Nahuatl Nations Magnus Pharao Hansen, 2024-08-09 Nahuatl Nations is a linguistic ethnography that explores the political relations between those Indigenous communities of Mexico that speak the Nahuatl language and the Mexican Nation that claims it as an important national symbol Author Magnus Pharao Hansen studies how this relation has been shaped by history and how it plays out today in Indigenous Nahua towns regions and educational institutions and in the Mexican diaspora He argues that Indigenous languages are likely to remain vital as long as they used as languages of political community and they also protect the community's sovereignty by functioning as a barrier that restricts access to the participation for outsiders Semiotic sovereignty therefore becomes a key concept for understanding how Indigenous communities can maintain both their political and linguistic vitality While the Mexican Nation seeks to expropriate Indigenous semiotic resources in order to improve its brand on an international marketplace Indigenous

communities may employ them in resistance to state domination *Historical English Syntax* Dieter Kastovsky, 2011-11-21

The future of English linguistics as envisaged by the editors of *Topics in English Linguistics* lies in empirical studies which integrate work in English linguistics into general and theoretical linguistics on the one hand and comparative linguistics on the other. The *TiEL* series features volumes that present interesting new data and analyses and above all fresh approaches that contribute to the overall aim of the series which is to further outstanding research in English linguistics. The Connecticut School Journal, 1902 **Improving Students' Writing, K-8** Diane M. Barone, Joan M. Taylor, 2006 Purposeful, realistic and clearly written, the book renews my excitement for teaching writing and for new teachers, the text offers suggestions from a voice of experience all within the framework of NCLB legislation for differentiating teaching based on learners' needs. Julia Weinberg, Instructor, University of Nevada, Reno. Give students the power to express their thinking in writing and to use writing as a process for learning. How can we improve students' ability to write constructed response to high stakes content area test items? How can we open for them the writing pathway to exploring and understanding informational texts? How can we help them develop the essential traits of proficient writing? Nationally recognized experts in literacy with experience in elementary, middle school and university classrooms as well as consulting expertise, Barone and Taylor meld theoretical and practical considerations about writing instruction to explain how to teach each child to self-monitor to improve writing skills. Grow in ability to write successful constructed response. Use writing to process and stretch their own thinking. Prepare for high stakes writing assessment. *Improving Students' Writing, K-8* brings together real life examples, rubrics, reproducible aids and how to's for getting the most out of your writers. **Haig's Intelligence** Jim Beach, 2013-10-24 Haig's *Intelligence* is an important study of Douglas Haig's controversial command during the First World War. Based on extensive new research, it addresses a perennial question about the British army on the Western Front between 1916 and 1918: why did they think they were winning? Jim Beach reveals how the British perceived the German army through a study of the development of the British intelligence system, its personnel and the ways in which intelligence was gathered. He also examines how intelligence shaped strategy and operations by exploring the influence of intelligence in creating perceptions of the enemy. He shows for the first time exactly what the British knew about their opponent when and how and in so doing sheds significant new light on continuing controversies about the British army's conduct of operations in France and Belgium and the relationship between Haig and his chief intelligence officer John Charteris. *British and Colonial Printer and Stationer*, 1912 **The Victorian Clergy** Alan Haig, 2016-07-01 First published in 1984, *The Victorian Clergy* occupied a uniquely prominent position in English society. Their church generated continual and often rancorous debate and they played an important part in the local provision of education, welfare and justice. Politically also, they were never negligible. But while in 1830 the clergy still constituted England's largest and

wealthiest professional body by 1914 their position was increasingly marginal This title examines these changes and the issues in which the clergy was facing during this transition The Victorian Clergy will be of particular interest to students of history

The Making of New World Slavery Robin Blackburn,1997 At the time when European powers colonized the Americas the institution of slavery had almost disappeared from Europe itself Having overcome an institution widely regarded as oppressive why did they sponsor the construction of racial slavery in their new colonies Robin Blackburn traces European doctrines of race and slavery from medieval times to the early modern epoch and finds that the stigmatization of the ethno religious Other was given a callous twist by a new culture of consumption freed from an earlier moral economy The Making of New World Slavery argues that independent commerce geared to burgeoning consumer markets was the driving force behind the rise of plantation slavery The baroque state sought successfully to batten on this commerce and unsuccessfully to regulate slavery and race Successive chapters of the book consider the deployment of slaves in the colonial possessions of the Portuguese the Spanish the Dutch the English and the French Each are shown to have contributed something to the eventual consolidation of racial slavery and to the plantation revolution of the seventeenth and eighteenth centuries It is shown that plantation slavery emerged from the impulses of civil society rather than from the strategies of the individual states Robin Blackburn argues that the organization of slave plantations placed the West on a destructive path to modernity and that greatly preferable alternatives were both proposed and rejected Finally he shows that the surge of Atlantic trade premised on the killing toil of the plantations made a decisive contribution to both the Industrial Revolution and the rise of the West
