Simone Janson, 2025-05-07 Also in the 7th revised and improved edition published by a government funded publisher involved in EU programs and a partner of the Federal Ministry of Education you receive the concentrated expertise of renowned experts overview in the book preview embedded in an integrated knowledge system with premium content and 75% advantage. At the same time you do good and support sustainable projects. Because earning money virtually on the side without having to do much for it is the old dream of many people. But what at first sight sounds like a beautiful illusion can become quite true. Passive income is the magic word after all only those who let their money work for them can become real. But unfortunately very few people are really familiar with the subject of investing money and there are as many opinions about the right financial planning as there are experts. So if you want to earn money on the side you would do well not to lose track in the jungle of financial products between stock trading with single stocks, ETF and index funds, gold, real estate etc. Therefore it makes sense to take a closer look at one's own asset planning after all savings and thus the retirement provisions that are important for retirement are only destroyed by inflation. With its integrated knowledge system and Info on Demand concept the publisher not only participated in an EU funded program but was also awarded the Global Business Award as Publisher of the Year. Therefore by purchasing this book you are also doing good. The publisher is financially and personally involved in socially relevant projects such as tree planting campaigns, the establishment of scholarships, sustainable innovations and many other ideas.
