Rethinking Grading Cathy Vatterott, 2015-07-13 Grading systems often reward on time task completion and penalize disorganization and bad behavior Despite our best intentions grades seem to reflect student compliance more than student learning and engagement In the process we inadvertently subvert the learning process After careful research and years of experiences with grading as a teacher and a parent Cathy Vatterott examines and debunks traditional practices and policies of grading in K 12 schools She offers a new paradigm for standards based grading that focuses on student mastery of content and gives concrete examples from elementary middle and high schools Rethinking Grading will show all educators how standards based grading can authentically reflect student progress and learning and significantly improve both teaching and learning Cathy Vatterott is an education professor and researcher at the University of Missouri St Louis a former middle school teacher and principal and a parent of a college graduate She has learned from her workshops that grading continues to be the most contentious part conjuring up the most intense emotions and heated disagreements Vatterott is also the author of the book Rethinking Homework Best Practices That Support Diverse Needs **Mathematics Methods for Elementary and Middle School Teachers** Mary M. Hatfield, Nancy Tanner Edwards, Gary G. Bitter, 2007-11-02 Always on the cutting edge of mathematics teaching the new Sixth Edition continues to integrate technology with hands on experience

and the latest research and standards The CD packaged with this book features videos with guiding questions to analyze real teacher student interaction in the hard to teach math concepts It also includes colored patterns to download that will help readers practice hands on manipulations as they prepare for interactive test items Mathematics Matters in Education Yeping Li,W. James Lewis,James J. Madden,2017-10-03 This book is inspired by Roger E Howe s contributions to the international communities of mathematics and mathematics education Renowned for his research contributions in the fields of representation theory automorphic forms harmonic analysis and invariant theory Dr Howe has also fundamentally deepened our understanding of the mathematics taught in the early school grades and has challenged and stimulated mathematicians and mathematics educators to work together to examine this part of the mathematical universe more critically and in imaginative new ways This volume will help summarize and highlight Howe s contributions to several topic areas in mathematics education demonstrating the possibility and importance of engaging mathematicians in high impact research in mathematics education and showcasing the importance of cross disciplinary collaboration and exchange
