New Directions and Trends in Parenting Research Nicolette Vanessa Roman,Yosi Yaffe,Dorit Alt,2024-08-28 For many decades parenting has been at the center of interest for practitioners and researchers interested in child social and psychological development The body of research on children s socialization has primarily focused on traditional parenting styles and their related practices in the spirit of Baumrind s and others conceptualization of parental control and power assertion e g authoritative authoritarian and permissive This research has revealed many domains of children s and adolescents adjustment and wellbeing that are affected by and affecting parenting quality but intriguing new parental approaches and types have recently emerged in research literature such as digital parenting transcendent parenting parental alienation overparenting helicopter parenting tiger parenting and several others about which more is yet to be learned Likewise in recent years our understanding of the role played by factors such as culture ethnicity environmental and familial background in the relationship between parenting styles and children s psychological wellbeing and mental health has greatly improved However the question of whether or not there is a global uniform optimal parenting remains controversial as more studies are required to better understand the varying impacts of parenting on the child s well being within different demographic and familial contexts This is especially true for families with special needs children i e children and adolescents with developmental and psychological disabilities where research on parenting styles in particular is understudied Additionally in the present digital era there is growing interest in relatively new behavioral outcomes in children and adolescents such as sedentary behaviors including eating and nutrition habits online behaviors and digital activity vs physical activity These and other important contemporary aspects in children s functioning and behaviors contribute to developmental mental health and further establishing our knowledge regarding the parental role in these contexts is essential Library Journal ,2003 *This Is Shakespeare* Emma Smith,2019-05-02 A THE TIMES BOOK OF THE YEAR 2019 The best introduction to the plays I ve read perhaps the best

book on Shakespeare full stop Alex Preston Observer It makes you impatient to see or re read the plays at once Hilary Mantel A genius and prophet whose timeless works encapsulate the human condition like no others A writer who surpassed his contemporaries in vision originality and literary mastery Who wrote like an angel putting it all so much better than anyone else Is this Shakespeare Well sort of But it doesn't really tell us the whole truth So much of what we say about Shakespeare is either not true or just not relevant deflecting us from investigating the challenges of his inconsistencies and flaws This electrifying new book thrives on revealing not resolving the ambiguities of Shakespeare's plays and their changing topicality It introduces an intellectually theatrically and ethically exciting writer who engages with intersectionality as much as with Ovid with economics as much as poetry who writes in strikingly modern ways about individual agency privacy politics celebrity and sex It takes us into a world of politicking and copy catting as we watch him emulating the blockbusters of Christopher Marlowe and Thomas Kyd the Spielberg and Tarantino of their day flirting with and skirting round the cut throat issues of succession politics religious upheaval and technological change The Shakespeare in this book poses awkward questions rather than offering bland answers always implicating us in working out what it might mean This is Shakespeare And he needs your attention

Shakespeare and the Cultivation of Difference Patricia Akhimie, 2018-01-12 Shakespeare and the Cultivation of Difference reveals the relationship between racial discrimination and the struggle for upward social mobility in the early modern world Reading Shakespeare's plays alongside contemporaneous conduct literature how to books on self improvement this book demonstrates the ways that the pursuit of personal improvement was accomplished by the simultaneous stigmatization of particular kinds of difference The widespread belief that one could better or cultivate oneself through proper conduct was coupled with an equally widespread belief that certain markers including but not limited to blackness indicated an inability to conduct oneself properly laying the foundation for what we now call racism A careful reading of Shakespeare's plays reveals a recurring critique of the conduct system voiced for example by malcontents and social climbers like Iago and Caliban and embodied in the struggles of earnest strivers like Othello Bottom Dromio of Ephesus and Dromio of Syracuse whose bodies are bruised pinched blackened and otherwise indelibly marked as

uncultivable By approaching race through the discourse of conduct this volume not only exposes the epistemic violence toward stigmatized others that lies at the heart of self cultivation but also contributes to the broader definition of race that has emerged in recent studies of cross cultural encounter colonialism and the global early modern world
