Foundation KSTF to increase the quantity of high quality high school science and mathematics teachers in United States
High Schools calls for a deeper understanding of what it takes to prepare and support successful teachers On September 21
2006 KSTF convened a group of 41 individuals with a broad range of perspectives and expertise to address three essential
questions with regard to secondary science teacher preparation What do we know what do we need to find out and what
research will help us fill in the gaps Participants were intentionally selected from a diverse cross section of the education
community and included teachers educational researchers teacher educators policy specialists and scientists The 41
participants formed 12 working groups and spent two and a half days addressing the following aspects of teacher
preparation recruitment and retention models of secondary science teacher preparation pedagogic preparation including
field based experiences methods courses and preparing teachers for diverse populations content preparation in biology
chemistry Earth science and physics as well as the nature of science in general induction mentoring Each working group was
tasked with synthesizing their discussions and conclusions for the entire group of conference participants and in a written
document This volume represents the final outcome of that conference 12 chapters that reflect the work of 40 dedicated
scholars and practitioners who share a deep commitment to the pursuit of excellence in the preparation of secondary science
teachers An Educational Psychology Textbook Equity,2014-10-10 The first half of the book focuses on broader questions
and principles taken from psychology per se and the second half focuses on somewhat more practical issues of teaching All
parts of the book draw on research theory and practical wisdom wherever appropriate Chapter 2 is about learning theory and
Chapter 3 is about development Chapter 4 is about several forms of student diversity and Chapter 5 is about students with
disabilities Chapter 6 is about motivation Following these somewhat more basic psychological chapters we turn to several
lasting challenges of classroom life challenges that seem to be an intrinsic part of the job Chapter 7 offers ideas about
classroom management Chapter 8 ideas about communicating with students Chapter 9 about ways to assist students complex
forms of thinking and Chapter 10 about planning instruction systematically The book closes with two chapters about
assessment of learning **Handbook of Child Psychology and Developmental Science, Cognitive Processes**
