 Roger Morriss,2020-11-26 During the French Revolutionary War the Channel Fleet played the crucial role of defending Britain from invasion protecting Britain s incoming and outgoing trade through the Channel and Western Approaches and preventing the French Brest fleet from setting forth on raids and expeditions Presenting documents revealing the evolution of this role during the war this book focuses on the blockade of Brest It shows how the blockade developed and tightened through the increase of Admiralty control of the disposition of the Channel Fleet It reveals the political conflicts that existed between the Commanders in Chief and the Admiralty the logistical demands that had to be met and the response of the Admiralty and fleet officers to the Spithead Mutiny Above all it reveals the response of the Fleet to the challenges it met from the French in their sequence of break outs and from the perennial problem posed by the necessity to preserve the health of seamen Here confuting the claims of contemporary medical officers is evidence that shows how scurvy remained a scourge to the very end of the war *The British Battleship 1906-1946* Norman Friedman,2015-09-30 The British battleship is one of the most intensely studied of all naval topics but it is also among the most popular Norman Friedman is one of the most highly regarded of all naval writers with an avid following for his work Therefore a new book on British battleships by Friedman is a major event and has been eagerly awaited ever since knowledge of the project began to circulate among

enthusiasts Friedman has the ability to bring new ideas to even the most over worked subjects based on extensive original research and a talent for explaining technology in the wider context of politics economics and strategy His latest book covers the development of Royal Navy capital ships including battlecruisers from the pre history of the revolutionary Dreadnought of 1906 to the last of the line HMS Vanguard in 1946 Repleat with original insights the story that emerges will enlighten and surprise even the most knowledgeable The attraction of the book is enhanced by sets of specially commissioned plans of the important classes by John Roberts and A D Baker III both renowned experts in their own right plus a colour section featuring the original Admiralty draughts including a spectacular double gatefold For many with an interest in warships this will be the book of the year
