Taking on Nippon

It seems foolhardy for anyone to take on Japanese-made household appliances with their own made-in-Malaysia alternative, but that was precisely what Pensonic did as it rose from retail outlet to manufacturer. **JOY LEE reports.**

Pensonic's rapid expansion has been a surprise to many. The company, which was founded in 1988, has grown from a small retail outlet to a major manufacturer of household appliances.

At the time, the company was a small retail outlet. It was founded by a group of people who were interested in household appliances.

Over the years, the company has grown significantly. It has expanded its product range and has established a strong presence in the market.

The company's success can be attributed to its focus on quality and customer service. It has built a reputation for reliability and has won the trust of its customers.

Today, Pensonic is a well-established company with a wide range of products. It continues to grow and expand its operations, maintaining its commitment to excellence.

The company's growth has been a testament to its hard work and dedication. It has become a leading player in the household appliance industry.
