Getting to the Common Core Sharon L. Spencer, Sandra Vavra, 2015-01-01 The Common Core Standards have recently been adopted in most states across the nation and teachers are in the process of getting to the core of these standards Teaching to standards is not a new concept teachers have adapted to

new standards every few years for quite some time And teachers are adaptable as can be seen in this book We are writing this book to demonstrate how teachers use research based strategies to meet Common Core Standards while still focusing on students Our goal is to help teachers visualize students in action as other teachers describe the implementation of research based strategies in their own classrooms show student work samples and provide reflections of student success in achieving the standards Many Common Core Standards books focus on the standards but our approach focuses on strategies that engage the students in the classroom showing how different teachers at varying grade levels have used the strategies to meet the standards With this focus we believe that teachers gain a new and positive perspective on approaching the new standards and see the flexibility of strategies for meeting standards across subject areas We have examined research on the strategies with the purpose of giving teachers a brief description of why these strategies work before giving actual examples from classrooms We also work closely with teachers in the public schools and have our finger on the pulse of what is happening in the public schools one of the current stressors being unpacking the Common Core Standards This book actually focuses on practice We begin by laying out a rationale in our first chapter The Core Value s of Education Then each chapter focuses on a strategy including 1 a brief description about the research supporting each strategy and 2 several examples from different grade levels which include a description of how the strategy was used student work samples and a reflection on the use of the strategy The research descriptions are fairly short because while we believe professional educators aka teachers in this case should know the research that supports practice we know they are not typically interested in long diatribes about the research

The Assessment Playbook for Distance and Blended Learning Douglas Fisher,Nancy Frey,Vince Bustamante,John Hattie,2020-11-04 Design assessments that measure and target student learning in both face to face and distance learning environments Assessments are the essential link between teaching and learning yet the assessments used in face to face classrooms are not always practical or impactful in remote learning environments Now that teachers are teaching from a distance how will you assess what your students have learned Tapping the expertise of teachers who are successfully engaged in distance learning The Assessment Playbook for Distance and Blended Learning answers that question Rich with a wide range of examples strategies and assessments that can be leveraged with rigor and fidelity regardless of learning environment this practical playbook empowers teachers with the decision making tools needed to gauge the impact of instructional strategies in today s rapidly evolving educational landscape It features Assessment cookies or insights that endure in any distance or hybrid learning environment and can be used to inform assessment decisions including the understanding that everything is searchable A robust playlist of distance learning assessment tools including universal response teach back opportunities composing taking action self assessment and peer assessment that teachers can mix and deploy to match every learning intention Information on how to evaluate the impact of your teaching on student learning and how assessment can guide your teaching moves Characteristics of formal tools of evaluation such as tests

longer essays and performance tasks that teachers can use in distance learning environments to document learning for reporting purposes Designed properly assessments implemented through the lens of distance and hybrid learning can yield significant impact for student achievement both in the pandemic teaching of today and in the educational contexts of the future
