diatique The Witcher est loin d'être terminé. Cette étude se propose aussi d'examiner la façon dont The Witcher construit sa propre légende, comment la notion de légende devient elle-même source matrice et résultat dans cette œuvre transmédia et polyphonique. Par sa composition par accumulation de variantes et par sa narration multipliant l'histoire et le merveilleux dans une approche toujours piquante, la saga The Witcher accorde à elle-même au statut de légende contemporaine. Elle propose un récit légendaire en construction, tissé d'emprunts des mythes variés et développant travers un vaisseau transmédia formant un vaste ensemble de récits glorifiant les exploits de héros et d'autres termes d'une légende.
